About CAE

CAE is a global leader in training for the civil aviation, defence and security, and healthcare markets. Backed by a record of more than 70 years of industry firsts, we continue to help define global training standards with our innovative virtual-to-live training solutions to make flying safer, maintain defence force readiness and enhance patient safety. We have the broadest global presence in the industry, with over 10,000 employees, 160 sites and training locations in over 35 countries. Each year, we train more than 220,000 civil and defence crewmembers, including more than 135,000 pilots, and thousands of healthcare professionals worldwide.

Founded in 1947 and headquartered in Montreal, Canada, CAE has built an excellent reputation and long-standing customer relationships based on experience, strong technical capabilities, a highly trained workforce and global reach.

Our Strategy

End-to-End Training Partner of Choice

Our vision is to be the recognized global training partner of choice to enhance customer safety, efficiency and readiness.

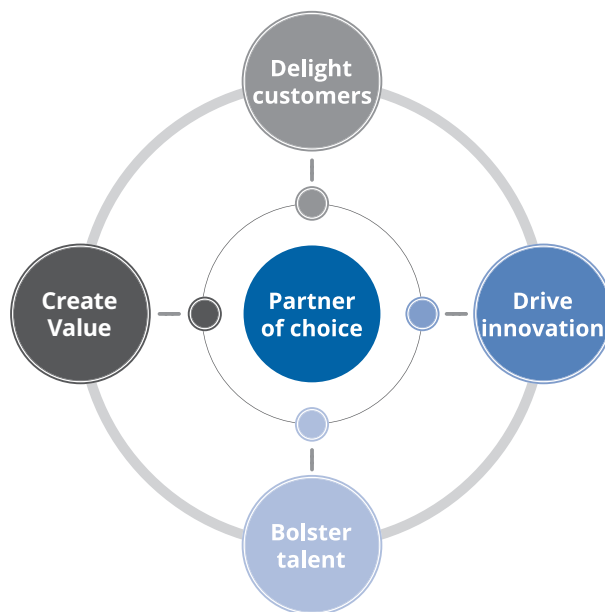

Achieving this goal depends on the successful implementation of four strategic imperatives, which will help protect our leadership position and grow our market share.

Our global leadership stems from our:

- Comprehensive training solutions
- Highly qualified and passionate employees
- Extensive experience and credibility delivering academic, simulator and live flying training
- Industry-leading global training network
- Commitment to excellence and innovation spanning more than 70 years
- Close collaboration with regulators and policymakers to help shape the future of training
- Ability to reduce customers' environmental impact through simulation-based training

Four Areas of Strategic Priority

Four areas of strategic priority to protect CAE's leadership position, achieve superior growth, and ultimately realize our vision to be the recognized global training partner of choice:

Six pillars of strength

We believe there are six fundamental strengths that underpin our strategy and position us well for sustainable long-term growth:

High Degree of Recurring Business

We operate in highly regulated industries with mandatory and recurring training requirements for maintaining professional certifications. Approximately 60% of our business is derived from the provision of services, which is an important source of recurring business, and largely involves long-term agreements with many airlines, business aircraft operators and defence forces.

Headroom in Large Markets

We provide innovative training solutions to customers in large addressable markets in civil aviation, defence and security and healthcare. Significant untapped market opportunities exist in these three core businesses, with substantial headroom to grow our market share over the long-term.

Potential for Superior Returns

In each of our businesses, we anticipate growing at a rate superior to our underlying markets. Our rising proportion of revenue from training services provides potential for lower amplitude cyclicality as training is largely driven by the training requirements of the installed fleet. In addition, we leverage our leading market position to deepen and expand our customer relationships. We see opportunity to further utilize our training network and generate more revenue from existing assets and to deploy new assets with accretive returns.

Strong Competitive Moat

Our global training network, unique end-to-end cadet-to-captain training solutions, digitally-enabled training systems, training systems integrator (TSI) expertise, unrivalled customer intimacy and strong, recognizable brand further strengthen our competitive moat.

Underlying Secular Tailwinds

The civil aviation and defence sectors are enjoying strong tailwinds. Air passenger traffic and defence budgets are expected to continue to increase globally over the next 10 years.

Culture of Innovation

We derive significant competitive advantage as an innovative leader in simulation products and training solutions. In collaboration with our customers, we design and deliver the industry's most sophisticated training systems, employing the latest in simulation, extended reality and digital technologies, which are shaping the future of training.

All of the following nominees, except for Ms. Marianne Harrison, are currently members of the Board of Directors, and have been recommended by the GC and the Board for election at the Meeting:

- Margaret S. (Peg) Billson
- The Honourable Michael M. Fortier, P.C.

Self-imposed term and age limits ensure CAE benefits from a combination of experience and fresh perspectives

The Board of Directors has passed a resolution establishing term limits comprising the following:

- up to two six-year periods of service, to aggregate twelve years maximum; and
- no nominee may be proposed past their attaining 72 years of age.

Section 2 (continued)

Business of the Meeting

Majority voting guidelines

Each Director of the Company must be elected by a majority (50% +1 vote) of the votes cast with respect to his or her election, other than at contested meetings (“**Majority Voting Requirement**”).

In accordance with the Board’s majority voting policy, any nominee for Director in an uncontested election who receives a greater number of “**withhold**” votes from his or her election than votes “for” his or her election (a “**majority withhold vote**”) shall tender his or her resignation to the Chair of the Governance Committee immediately following certification of the Shareholder vote.

The Governance Committee will promptly consider the tendered resignation and recommend to the Board whether to accept or reject it. In the absence of exceptional circumstances, the Board expects the Governance Committee will recommend that the Board of Directors accept such resignation.

The Board will act on the Governance Committee’s recommendation not later than 90 days following the date of the Shareholders’ meeting at which the election occurred. In deciding whether to accept the tendered resignation, the Board will consider the factors considered by the Governance Committee and any additional information and factors the Board believes to be relevant. The Board shall accept the resignation absent exceptional circumstances.

The resignation of the Director whose election did not meet the Majority Voting Requirement will be effective when accepted by the Board. A Director who tenders a resignation pursuant to this policy will not participate in the Governance Committee recommendation or the Board consideration whether to accept or reject the resignation, and will not attend any part of a meeting of the Board or the Governance Committee at which his or her resignation is discussed or a related resolution is voted upon.

Promptly following the Board’s decision, the Company will issue a news release disclosing that decision and providing a full explanation of the decision reached. A copy of the news release with the Board’s decision will be provided to the Toronto Stock Exchange.

If the Board decides to accept the Director’s resignation, the Governance Committee will recommend to the Board whether to fill the resulting vacancy or to reduce the size of the Board. If a majority of the members of the Governance Committee received a majority withhold vote at the same election, then the independent Directors who did not receive a majority withhold vote will appoint a Board committee amongst themselves solely for the purpose of considering the tendered resignations and will recommend to the Board whether to accept or reject them.

Detailed voting results will be disclosed after the Meeting

Promptly, after the Meeting, we will publicly disclose the number and percentage of votes cast for and withheld in respect of each nominee, as well as those cast for and against each other matter voted on by Shareholders at the Meeting.

The Board of Directors recommends that Shareholders vote **FOR** the election of the 10 nominated members of the Board.

3 Appoint the Auditors

The Board, on recommendation by the Audit Committee, proposes that PwC, Chartered Accountants, Montréal, Québec be re-appointed as auditors of CAE to hold office until the close of the next annual meeting of Shareholders and that the Directors of CAE be authorized to fix their remuneration.

- 3. Tax Services:** fees relating to tax compliance, tax planning and tax advice.

Auditors independence

The Audit Committee has discussed with PwC its independence from management and CAE, has considered and concluded that the provision of non-audit services is compatible with maintaining such independence.

Furthermore, as per its policy, the Audit Committee reviews and pre-approves all non-audit services provided by the external auditors above a specified level.

The following chart shows all fees paid to PwC by CAE and its subsidiaries in the most recent and prior fiscal year.

FEE TYPE	2019 (\$ millions)	2018 (\$ millions)
1. Audit services	4.6	4.6
2. Audit-related services	0.1	0.2
3. Tax services	0.6	0.6
Total	5.3	5.4

Fees Paid by CAE to PwC in FY2019

In order to further support PwC's independence, the Audit Committee has set a policy concerning CAE's hiring of current and former partners and employees of PwC who were engaged on CAE's account in the recent years.

The Board of Directors recommends that Shareholders vote **FOR** the appointment of PwC as CAE's auditors.

4 Advisory Vote on Executive Compensation

As detailed in Section 7 – “**Executive Compensation**”, CAE's executive compensation philosophy and programs are based on the fundamental principle of pay-for-performance to align the interests of our executives with those of our Shareholders. This compensation approach allows CAE to attract and retain high-performing executives who are strongly incentivised to create value for CAE's Shareholders on a sustainable basis.

We encourage you to carefully read this section of the Circular which describes our overall approach to executive compensation, the objectives of our executive compensation program, how compensation decisions are made and the compensation paid to our most highly paid executive officers in the last three years.

At the Meeting, Shareholders will be asked to consider and to cast an advisory, non-binding vote on CAE's approach to executive compensation – this is often referred to as “say on pay”.

Section 2 (continued)

Business of the Meeting

The text of the “say on pay” resolution reads as follows:

“Resolved that the Shareholders accept the approach to executive compensation disclosed in this Management Proxy Circular”.

Because your vote is advisory, it will not be binding upon the Board. However, the HRC will review and analyze the results of the vote and take into consideration such results when reviewing executive compensation philosophy and programs.

The Board of Directors recommends that Shareholders vote **FOR** the resolution set out above.

If a majority of the Shares represented in person or by proxy at the Meeting are voted against the above non-binding advisory resolution, the Board Chair or the HRC Chair will oversee a process to engage with Shareholders with a view to giving Shareholders the opportunity to express their specific concerns. The Board of Directors and the HRC will consider the results of this process and, if appropriate, review the Company’s approach to executive compensation in the context of Shareholders’ specific concerns.

Our approach to executive compensation was approved by 93.2% of the votes cast on the resolution during our August 14, 2018 annual meeting of Shareholders.

Other business

Following the conclusion of the formal business conducted at the Meeting, we will:

- provide an update on our business operations, and
- invite questions and comments from Shareholders.

Corporate Governance

Our Commitment to Sound Corporate Governance

The Board of Directors and management team take pride in knowing that CAE has maintained the highest standards in corporate governance. CAE's corporate governance is rooted in the basic principle that proper and ethical practices lead to the creation and preservation of Shareholder value.

Our governance structure enables independent, experienced and accomplished Directors to provide advice, insight and oversight to advance the interests of the Company and our Shareholders.

Regulatory compliance

As a Canadian reporting issuer with Common Shares listed on the TSX and the NYSE, CAE's corporate governance practices are required to meet and exceed applicable rules adopted by the CSA and the SEC, as well as provisions of the rules of the NYSE and of SOX.

Most of the NYSE's corporate governance listing standards are not mandatory for CAE as a non-U.S. company, but CAE is required to disclose the significant differences between its corporate governance practices and the requirements applicable to United States companies listed on the NYSE. Except as summarized on CAE's website (<http://www.cae.com/investors/governance>), CAE is in compliance with the NYSE requirements in all significant respects. CAE also complies with those provisions of SOX and the rules adopted by the SEC pursuant to that Act that are currently applicable to CAE.

Best practices and continuous improvement

The Board and its Governance Committee continue to monitor governance practices in Canada and the United States, and to implement changes to CAE's governance policies and practices as necessary to comply with any new rules issued by the CSA and other applicable regulatory authorities. We also monitor recommended best practices of shareholder representatives and other organizations and will implement any such practice we believe to be in the best interest of the Company.

Communication and shareholder engagement

CAE is committed to ensure open, ongoing dialogue with Shareholders, employees, other investors and the public. Through CAE's Disclosure Policy and procedures, the Board ensures that communication of material information to investors is timely and accurate, and broadly disseminated in accordance with all applicable securities laws and stock exchange rules.

CAE recognizes the importance of engaging in constructive and meaningful communications with Shareholders and values their input and insights. To that effect, we have put in place various means to ensure consistent and effective communication with Shareholders and to encourage them to express their views and provide direct feedback to the Board and management.

- We regularly communicate with our stakeholders through various channels, including via our website (www.cae.com). Shareholders, customers and other stakeholders can access comprehensive information about the Company through our investors webpage (www.cae.com/investors) where annual and quarterly reports, news releases, corporate social responsibility reports, corporate presentations and governance-related documents are available.
- We host quarterly earnings conference calls with financial analysts and institutional investors to review CAE's most recently released financial and operating results. Our earning calls are webcast live and are followed by a question and answer period to which all Shareholders can access.
- The Board strongly encourages Shareholders to attend the Company's annual Shareholders' meetings and Directors make themselves available at every annual meeting to engage with and respond to questions from Shareholders. Each Shareholders' meeting can be attended in person or via live webcast and provides valuable opportunities to discuss the Company, its corporate governance and other important matters.

Corporate Governance

- The Company is committed to effectively engaging with Shareholders and other stakeholders on the topic of executive compensation on an ongoing basis. This year again, Shareholders will be asked at the Meeting to consider and to cast an advisory, non-binding vote on CAE's approach to executive compensation – this is often referred to as "say on pay". Although this is an advisory vote and the results are not binding, the HRC will review and analyze the results of the vote and take into consideration such results when reviewing executive compensation philosophy and programs.
- Shareholders are also always invited to submit proposals to be considered at an annual Shareholders' meeting of the Company and included in our management proxy circular. More information is provided on p. 75 of this Circular.
- CAE's Global Communications and Investor Relations departments actively engage with investors to address any specific questions or concerns they might have. Shareholders may send comments or questions via email to investor.relations@cae.com. In addition, CAE's transfer agent, Computershare Trust Company of Canada, has a toll-free number (1-800-564-6253) and website (www.computershare.com) to assist Shareholders.
- Shareholders may communicate with the Board or management in writing to express their views on matters that are important to them, by addressing their correspondence to the Chair of the Board or the Corporate Secretary, as the case may be, either (i) by mail in an envelope marked "confidential" to the attention of the Chair of the Board or the Corporate Secretary, CAE Inc., 8585 Ch. de la Côte-de-Liesse St-Laurent (Québec) Canada H4T 1G6 or (ii) by email at investor.relations@cae.com.
- Shareholders may ask to meet with the Chair of the Board, the Chair of any Board Committee or an individual Director to discuss compensation and governance-related topics for which the Board is directly responsible. The Chair of the Board will consider such meeting request in consultation with the Chair of the Governance Committee and the Corporate Secretary. The Board reserves the right to decline requests for meetings for any reason it deems appropriate, including where the proposed topics for the meeting are not related to compensation and corporate governance matters and are better handled by management.
- As part of our ongoing dialogue engagement with our Shareholders, we organize investors days and our President and Chief Executive Officer, Vice President, Finance and Chief Financial Officer and Vice President, Investor Relations, regularly meet in person or by telephone with institutional investors and proxy advisory groups.

Board and management roles

Section 4 (continued)

Corporate Governance

President and CEO's role and responsibilities

The position description for the President and CEO is developed with input from the President and CEO, and is approved by the Governance Committee and the Board of Directors. The description (which is available on our website) provides that the President and CEO is responsible for defining, communicating and implementing the strategic direction, goals and core values of CAE with a view to maximizing CAE's value. It also provides that the President and CEO is accountable to the Board for, amongst other things, formulating and executing business strategies, overseeing CAE's corporate governance structure and framework, overall responsibility for the management of CAE's business, building and maintaining a network of strategic relationships with business leaders, governmental officials and investors, developing and implementing a human resource strategy which develops leadership capabilities, and creating an organizational structure and culture that optimize and sustain high levels of performance.

The Board Chair is independent

Mr. John P. Manley, the current non-executive Chair of the Board, is responsible for ensuring that the Board of Directors discharges its responsibilities independently of management. Correspondence to the Independent Directors may be sent to the attention of the Chair of the Board, at CAE's address listed in this Circular.

The Board Chair position description (which is available on our website) sets out the Chair's responsibilities and duties in guiding the Board in the fulfillment of their stewardship role, namely:

Board meeting attendance averaged 99.4% in FY2019.

- Represent the Board in discussion with management;
- Represent the Board in discussion with third parties;
- Generally ensure that the Board functions independently of management;
- Chair and encourage free and open discussions at the Board meetings;
- Together with the GC, identify guidelines for the selection of, and evaluation of conduct of the Directors; and
- Report to Shareholders on behalf of the Board.

Processes in place to ensure the Board may function independently of Management

The Independent Directors met separately from the President and CEO at each of the meetings of the Board of Directors during FY2019, and at each meeting of the HRC, GC and Audit Committee. At the Board meetings, the Independent Directors' meetings are chaired by the non-executive Chair; at Committee meetings, by the Chair of that Committee. The Board, its Committees as well as individual Directors are also able to retain and meet with external advisors and consultants at the expense of CAE in appropriate circumstances. In fact, the Board has regular access to information independent of management through the external and internal auditors, as well as independent compensation consultants and the possibility of independent legal counsel. The Board believes that sufficient processes are in place to enable it to function independently of management.

The appointment of specific Directors to each of the standing Board Committees is generally intended to reflect the relevance of Independent Directors’ skills and experience to the applicable Committee’s Charter (refer to Section 3 – “**About the Nominated Directors**” for details about the selection process and criteria).

Orientation and continuing education

New Directors meet with CAE executive officers, including the President and CEO and Vice President, Finance and CFO, to discuss CAE’s expectations of its Directors and to discuss CAE business and strategic plans. New Directors also review CAE’s current business plan, detailed agendas and materials of previous Board meetings. New Directors of CAE receive a comprehensive reference manual containing all key corporate and Board policies, including the Code of Business Conduct and other relevant materials and executive briefing sessions. All Directors have regular access to senior management to discuss Board presentations and other matters of interest. CAE management and the Governance Committee keep all Directors aware of major developments in corporate governance, important trends and new legal or regulatory requirements. The Board also receives presentations from senior management on CAE’s performance and issues relevant to the business of CAE, the industry and the competitive environment in which it operates.

The Governance Committee encourages CAE’s Directors to attend conferences, seminars or courses whether they be industry-specific to CAE or whether relevant to fulfill their role as a Director, the cost of which will be borne by CAE. In recognition of the rapidly changing technology and competitive environment and emerging markets in our business, the Board requires management to provide an in-depth review of the business segments in which we operate at regularly scheduled meetings, as well as our industry in general. The Board and its Committees are continually updated by management on developments related to corporate governance, Directors’ fiduciary duties, changes in law, industry news and other educational material.

Ethical business conduct

CAE has a Code of Business Conduct that governs the conduct of CAE’s Directors, officers, employees, contractors and consultants. CAE uses Ethicspoint, a third-party whistleblower reporting service, to facilitate reporting of breaches of the Code of Business Conduct and any other misconduct. Apart from any individual reports the Board or its Committees may receive from management or the whistleblower service, the Governance Committee receives a quarterly and an annual report from management on CAE’s management’s compliance with the Code of Business Conduct.

Section 4 (continued)

Corporate Governance

Risk management oversight

Enterprise risk management is essential to CAE given the size, nature and complexity of its operations. CAE has implemented an Enterprise Risk Management Policy which sets out its framework and processes to ensure that risks are identified, measured, managed, and reported proactively and in a manner that is consistent with the expectations of the Board and the interests of CAE's internal and external stakeholders, including employees, shareholders, clients, and suppliers.

Pursuant to our policy:

- the Board is accountable for the oversight of risk management of all material risk factors related to CAE's business, including risks related to ethics and governance, strategy, legislation, finances and operations. This oversight requires the Board and management to establish risk management policies and practices and to ensure that these policies and practices remain adequate, prudent and comprehensive at all times. The Board is accountable for understanding CAE's key enterprise risks. The Board and its Committees review the key enterprise risks to ensure the adequacy of the risk management process for identifying, assessing and managing such risks.
- our business units exercise the daily management of their risks and controls and implement corrective actions to address any process and control deficiencies.
- the Vice President, Strategy and Investor Relations provides operational risk oversight in various risk management, compliance, and controllership functions and advises senior management accordingly.
- the Audit Committee and senior management provide an independent appraisal of CAE's risk management framework, control environment and internal control systems.

At the annual strategy session, the Board evaluates CAE's identified categories of risk. Further, the Board receives updates from the President and CEO and other members of management on enterprise risk throughout the year.

You can find a more comprehensive discussion of risk management in Section 9 – *Business risk and uncertainty* of our fourth quarter and year ended March 31, 2019 Management Discussion and Analysis, filed with the Canadian securities commissions, the U.S. Securities and Exchange Commission under Form 6-K, and available on our website (www.cae.com), on SEDAR (www.sedar.com), and on EDGAR (www.sec.gov).

In addition to access through the Board's website to an evergreen supply of current research and analysis, news reports and academic studies on best governance and compensation practices and other aspects of board and fiduciary responsibilities and use of research and educational tools, the following activities were conducted in FY2019 to ensure that all required educational resources are available to Directors to properly discharge their responsibilities:

Other Board commitments and Interlocks Policy

The following policy applies to all Directors:

- (a) No more than two Directors should serve on the same outside board or outside board committee, unless otherwise agreed by the Board.
- (b) Directors who are employed as chief executive officers, or in other senior executive positions on a full-time basis with a public company, should not serve on the boards of more than two public companies in addition to CAE's Board.
- (c) Directors who: (i) have full time employment with non-public companies, (ii) have full-time employment with public companies but not as CEO, or (iii) do not have full time employment, should not serve on the boards of more than four public companies in addition to CAE's Board.
- (d) The President and Chief Executive Officer of CAE should not serve on the board of more than one other public company and should not serve on the board of any other public company where the chief executive officer of that other company serves on the CAE Board.
- (e) Prior to accepting any additional public company board of directors' appointment, a Director must first disclose the proposed appointment for review by the Governance Committee and the Chair of the Board.

Board evaluation process

The Governance Committee has the mandate and responsibility to review, on an annual basis, the performance and effectiveness of the Board as a whole and each individual Director. The Chair of the Governance Committee annually approves and distributes a comprehensive questionnaire to each member of the Board regarding various aspects of Board and individual performance. The questionnaire covers a wide range of issues, including the operation and effectiveness of the Board and its committees, the level of knowledge of the Directors relating to the business of CAE and the risks it faces, and the contribution of individual Directors, and allows for comment and suggestions. The Chair of the Governance Committee compiles responses to the questionnaire and prepares a report to the Governance Committee which provides a report to the full Board. The Governance Committee may then recommend changes based upon such feedback to enhance Board performance or refer any areas requiring follow-up to the relevant committees. In addition to the foregoing, each Director individually meets with the Chair of the Board at least once annually to discuss his or her individual performance and the performance of the Board as a whole. As well, the Chair of the Board's performance is evaluated and assessed through one-on-one meetings between each Director and the Chair of the Governance Committee. Both the Chair of the Board and the Chair of the Governance Committee then report back to the full Board.

Board Committee Reports

Review of Board members' compensation

In light of the changes to Board compensation implemented as of January 1, 2018, no further changes to Board compensation were proposed, and the Governance Committee agreed to maintain the *status quo*.

Resolution of complaints under the Code of Business Conduct

The Governance Committee is kept apprised of every report filed with the independent third party responsible for receiving any complaints under CAE's Code of Business Conduct, as well as relevant complaints received by CAE senior management. The GC is regularly informed of the resolution of such complaints (as is the Chair of the Audit Committee where misconduct relating to financial accounting, books and record keeping, fraud or similar financial impropriety is alleged) and the results of the annual certification process for CAE employees under CAE's Code of Business Conduct.

Diversity initiatives

In May 2015, following the GC's recommendation, the Board adopted the Policy Regarding Board and Executive Officer Diversity.

The Policy confirms the guiding principle that the Board will nominate Directors and appoint executive officers based on merit and the needs of CAE at the relevant time, and, that CAE is strongly committed to finding the best people to serve in such roles. The Policy also recognizes that diversity helps ensure that (a) Director and executive officers provide the necessary range of perspectives, experiences and expertise required to achieve effective stewardship and management of CAE, and (b) a variety of differing perspectives are included in addressing issues, while providing a greater likelihood that proposed solutions will be robust and comprehensive. Gender diversity is specifically acknowledged in the Policy as a significant aspect of diversity.

The Policy provides that:

- in identifying potential candidates to serve on the Board, the Committee will (a) consider only candidates who are highly qualified based on their talents, experience, expertise and character (b) take into account criteria that promote diversity, including, but not limited to, gender, international background, nationality, age, and industry knowledge, (c) endeavor to use any available network of organizations and associations that may help identify diverse candidates, and (d) in order to support the specific objective of gender diversity, consider the level of representation of women on the Board; and in identifying potential candidates for appointment as President and CEO and for other executive officer positions, the Human Resources Committee and the President and CEO, respectively, will (a) consider individuals from a variety of backgrounds and perspectives with the Company's diversity objectives in mind, including, without limitation, the specific objective of gender diversity, and (b) consider the level of representation of women in executive office positions.

In May 2018, the Board, on the recommendation of the GC, updated the Policy Regarding Board and Executive Officer Diversity, and adopted a target that women represent at least 30% of directors by 2022. The Board remains committed to its diversity initiatives and will continue to include diversity as an important consideration in the selection process of any future candidates.

Section 5 (continued)

Board Committee Reports

In order to ensure that the Policy is appropriately implemented and to measure its effectiveness, at least annually:

- the Committee will assess and report to the Board regarding the efficacy of the Director nomination process at achieving the Company's diversity objectives; and
- the President and CEO will assess and report annually to the Human Resources Committee regarding the efficacy of the executive officer appointment process at achieving the Company's diversity objectives.

CAE has not adopted targets for the number of women or other diverse groups in executive officer positions, due to the small size of this group and the challenge to effect change at this level of seniority in the organization. However, CAE recognizes that diversity is an essential consideration in the selection process for new executive officers and intends to implement proactive steps to increase the number of women in leadership positions.

Two of ten (or 20%) of CAE's Director Nominees and three of ten (or 30%) of the Company's current executives are women. A total of 7 women occupy senior management positions (i.e. vice president or above), which represents 19% of the Company's total senior management population.

Board Committee Reports

Highlights for FY2019

Talent management

In FY2019, CAE continued the execution of its leadership and succession initiative throughout the Company. In addition to the focus on identification and development of key talents deeper into the organization, an increased focus was also directed towards the identification and development of current and future female leaders across CAE as part of our Diversity & Inclusion (D&I) initiative. Specific targets related to the D&I initiative have been set and our recruitment practices and policies have been further aligned to support our diversity efforts. Global awareness training on Diversity and Inclusion has been deployed to all CAE employees to further support this effort. The intention of the program is to create the awareness, tools and infrastructure to support the Company's goals to increase the level of female representation in leadership positions.

CAE continued to further deploy the new approach to performance management that was developed in FY2018. In addition, to support the effectiveness of the new approach, focus was given to upskilling leaders in coaching as well as raising adoption of the feedback culture. This new approach was designed to facilitate a greater level of conversations, transparency and people development through multi-way feedback and feed-forward. In Q4, CAE implemented a "Conversation" tool to facilitate the exchange of feedback with employees and leaders and the entering/tracking of goals. This leading-edge Performance Management Program is now fully implemented as the company works on mastery and adoption of the program.

Through its commitment to leadership development, the Company continued to move and develop some of its key talents into development roles within various business units and regions, serving to develop these individuals and further strengthen leadership in certain areas. In FY2020, in conjunction with the Company-wide Talent and Leadership Reviews and the focus on diversity & inclusion, along with performance management, the Company will continue to develop these high potential individuals, further advance gender parity within leadership roles and look to further facilitate development opportunities for key talent across the organization. These actions will support the HRC's oversight of the Company's efforts to ensure the effective development of CAE's future executive leaders so that a sufficient leadership and talent pipeline is in place to meet the Company's future needs.

Executive compensation

The HRC also conducted a compensation risk assessment with the assistance of its independent compensation consultant to identify potential risks associated with CAE's compensation programs, practices and policies. The assessment concluded that the risks are reasonably unlikely to have a material adverse effect on the Company.

Health and safety

In FY2019, CAE continued to demonstrate its commitment to the health and safety of its employees and received clear signs that our culture is shifting in the right direction. Even though our injury and days lost rate increased compared to the previous year, a 22% increase in overall events reported demonstrates a more mature organization in which the reporting of any risks or events is encouraged and seen as positive, a message CAE has been focusing on. To continue to enable and support that behavior, we deployed a global health and safety management software across the entire organization. This new platform allows our employees to report events and observations for enhance safety for reporting and tracking of accidents and enables every CAE locations and leadership to get real time data and trends on their health and safety results.

Aviation Safety Programs

In FY2019, the HRC implemented a practice of reviewing CAE's Aviation Safety Programs. Through the course of the year, leadership of both the Civil and D&S Aviation Safety Programs worked to align the Company's Aviation Safety Programs to ensure a standardized approach. Presentations were made to the HRC in terms of progress to identified safety performance targets, incident investigations and related actions and on-going program initiatives.

Section 6

Director Compensation

This section provides information pertaining to the compensation, Share ownership and Share ownership requirements of our non-employee Directors.

Our compensation program for non-employee Directors has the following objectives:

- Attract and retain highly qualified, committed and talented members of the Board with an extensive and relevant breadth of experience; and
- Align the interests of Directors with those of our Shareholders.

The Board sets the compensation of non-employee Directors based on recommendations from the Governance Committee.

The Governance Committee reviews every second year the compensation of non-employee Directors and recommends to the Board such adjustments as it considers appropriate and necessary to recognize the workload, time commitment and responsibility of the Board and committee members and to remain competitive with directors' compensation trends. Any Director who is also an employee of the Company or any of its subsidiaries does not receive any compensation as a Director.

Effective January 1, 2018, Directors' all-inclusive fees were set as follows:

Position	Annual Fee	Form of Payment
Board Chair	\$310,000	<ul style="list-style-type: none"> • \$142,500 in DSUs • \$167,500 in cash or DSUs at Director's election

Board Committee Member	\$10,000	<ul style="list-style-type: none"> • DSUs up to minimum ownership requirement • Cash or DSUs at Director's election thereafter
Special Ad Hoc Steering Committee Chair	\$25,000	<ul style="list-style-type: none"> • Cash or DSUs at Director's election
Special Ad Hoc Steering Committee Member	\$15,000	<ul style="list-style-type: none"> • Cash or DSUs at Director's election

¹ The Governance Committee chair compensation is of \$20,000. Committee Chairs do not receive additional compensation for Committee membership.

The Board believes the all-inclusive annual flat fee (in lieu of retainers and attendance fees) compensate Directors fairly and equitably for the risks, time commitment and responsibilities in being effective Directors.

Director compensation benchmarking and comparator group

To benchmark Directors' compensation, the Governance Committee uses the same comparator group of companies as that used to benchmark NEOs' compensation. This comparator group comprises Canadian and U.S. publicly-listed companies that have relevance to CAE in terms of head office location, market segment or business activities, revenue and market capitalization. The comparator group was reviewed in FY2018 as adjustments were made to account for merger and acquisition activities and to ensure it continues to reflect CAE's employment market and financial results. Refer to Section 7 – "Executive Compensation" of this Circular for the companies included in CAE's latest Comparator Group and detailed selection criteria.

- **Same comparator group as for NEOs.**
- **Director compensation last benchmarked and adjusted in FY2018.**

Director Compensation

Non-Employee Directors' Deferred Share Unit Plan (Directors' DSU Plan)

A DSU is equal in value to one Common Share of CAE and accrues additional units in an amount equal to each dividend paid on Common Shares. DSUs earned by non-employee Directors vest immediately but are only redeemable after termination of the Director's service with CAE. Payment in cash is then made based on the market value of the equivalent number of Common Shares, net of tax and any other applicable withholdings.

Minimum shareholding requirements

Directors are required to own the equivalent of three times the annual Board base retainer in the form of Common Shares and/or DSUs. Directors are required to receive their compensation in respect of their services, including, without limitation, the annual retainer for serving as a member of the Board or a committee thereof, in Deferred Share Units until such shareholding is attained.

Non-employee Directors holding Common Shares and/or DSUs of a value that is less than the equivalent of three times the annual Board base retainer receive all fees in the form of DSUs. Once such minimum is reached, a non-employee Director may elect to continue to participate in the Directors' DSU Plan in respect of part or all of his or her annual Board and Committee fees over and above the annual fee component paid in DSUs.

- **Minimum shareholding requirements align Directors' and Shareholders' interests.**
- **Equal to three times the annual Board base retainer.**
- **Annual retainer paid in DSUs until the requirement is attained.**
- **DSUs facilitate Directors' achievement of minimum shareholding requirements.**

A non-employee Director is not, once the minimum Common Share and/or DSU ownership target is reached, obligated to acquire more Shares or DSUs if the value of his/her investment in CAE drops due to stock market fluctuations.

Risk mitigation

As per the terms of the DSU Plan, the rights and interests of a Director in respect of the DSUs held in such participant's account are not transferable or assignable other than for specific cases of legal succession.

CAE maintains Directors' and officers' liability insurance for its Directors and officers, as well as those of its subsidiaries as a group.

Anti-Hedging Policy

The policy provides that no Director or CAE executive (defined to include senior officers and vice-presidents) may, at any time, purchase or otherwise enter into financial instruments, including prepaid variable forward contracts, instruments for the short sale or purchase or sale of call or put options, equity swaps, collars, or units of exchangeable funds, that are designed to or that may reasonably be expected to have the effect of hedging or offsetting a decrease in the market value of any CAE securities, including but not limited to DSUs.

1 Represents the number of DSUs each non-employee Director earned during FY2019, including additional DSUs equivalent in value to the dividends paid on the Common Shares credited in-year, rounded to the nearest whole number. The DSUs vest immediately but are redeemable and paid out only after the non-employee Director ceases to be a Director of CAE in accordance with the terms of the Directors DSU Plan.

2 The value was determined by multiplying the number of DSUs, including additional DSUs equivalent in value to the dividends paid on the Common Shares credited in-year, by the closing prices of the Common Shares on the TSX on the respective dates of each grant. The DSUs are granted at the end of each quarter.

3 The market value of the DSUs was determined by multiplying the number of all DSUs vested but not paid out or distributed, including additional DSUs equivalent in value to the dividends paid on the Common Shares credited in-year, as at March 31, 2019 by the closing price of the Common Shares on the TSX on March 29, 2019, which was \$29.61. Numbers containing fractions have been rounded up for calculation purposes.

Compensation Objectives

Much of CAE's success in developing and growing its worldwide business is attributable to having highly qualified and motivated employees. The executive compensation programs are based on a pay-for-performance philosophy. Executives receive salaries, annual short-term incentive awards contingent upon attaining consolidated business results and individual achievements, and long-term incentive awards that motivate executives to create increasing and sustainable value for the Shareholders. In addition, executives receive perquisites and participate in pension and benefits programs.

Section 7 (continued)

Executive Compensation

The objectives of the CAE executive compensation programs are to:

- Attract, retain, and motivate qualified executives
- Align executives and Shareholders' interests around the creation of incremental value
- Foster teamwork and entrepreneurial spirit
- Establish an explicit and visible link between all elements of compensation and corporate and individual performance
- Integrate compensation with the development and successful execution of strategic and operational plans

Setting Executive Compensation

Compensation principles

CAE's compensation policies and practices are structured in a balanced way, such that they do not create risks that could have a material adverse effect on the Company.

The emphasis of CAE's executive compensation programs is on variable and long-term compensation that ties interests of our executives with those of our Shareholders.

The principles underlying CAE's executive compensation programs are as follows:

Pay for performance	The majority of compensation is variable, contingent and directly linked to financial and operational performance metrics, as well as CAE's Share price performance.
Balance	The portion of total compensation that is performance-based increases with an executive's level of responsibility.
Long-term focus	For our most senior executives, long-term stock-based compensation opportunities outweigh short-term cash-based opportunities.
Shareholder alignment	The financial interests of executives are aligned with the interests of our Shareholders through stock-based compensation, and annual and long-term performance metrics that correlate with sustainable Shareholder value growth.
Competitiveness	Total compensation is competitive to attract, retain, and motivate CAE's executive team while fostering entrepreneurial spirit. This is achieved by providing compensation at the median of our comparator group but paying above the median for superior performance.
Responsibility	Compensation takes into account each executive's responsibility to always act in accordance with our ethical, environmental and health and safety objectives, channeled through our Code of Business Conduct. Commitment to ethical and corporate responsibilities is a fundamental belief underlying all aspects of our behavior and compensation plans, from setting targets to conducting regular performance assessments and succession planning. Financial and operational performance must not compromise these values.

Executive Compensation

Role of the HRC in setting executive compensation

The HRC acts as an advisory committee to the Board of Directors. The Board assigns responsibilities to the HRC with regards to the review, approval, and administration of CAE's compensation programs. The main components of the HRC's mandate with respect to compensation are:

- Review and approve the design of executive compensation and benefits programs;
- Review and consider the input of independent external consultants;
- Review and approve the composition of CAE's comparator group;
- As appropriate, meet with Shareholders to discuss executive compensation and benefits;
- Report to the Board on how changes to compensation and benefits plans impact CAE's financial performance and obligations;
- Recommend to the Board the President and CEO's compensation;
- Review and approve on behalf of the Board the President and CEO's recommendations for annual compensation of his direct reports;
- Review and approve changes to pension plans, including investment strategies; and
- Prepare the Compensation Discussion & Analysis section of the annual management proxy circular and other disclosure documents.

Role of compensation consultants

The HRC retains the services of an independent compensation consultant, Hugessen Consulting Inc. ("**Hugessen**"), to provide advice on executive compensation matters. Hugessen is responsible for reviewing materials presented to the HRC and the origination of materials on compensation-related matters. Furthermore, Hugessen advises on the design of the Company executive compensation programs. No CAE Director or officer has any affiliation with Hugessen.

CAE's management also uses the services of PCI – Perrault Consulting Inc. ("**PCI – Perrault**") to assist CAE in the review of the CAE comparator group, benchmarking of its executive and Board of Director positions, as well as drafting of the annual management proxy circular.

While the HRC and the Board receive input from others, they are responsible for the design, application and oversight of the CAE's executive compensation programs.

The following table shows the fees paid by CAE to Hugessen and PCI-Perrault for FY2019 and FY2018.

Year	Fees paid to Hugessen		Fees paid to PCI – Perrault	
	FY2019	FY2018	FY2019	FY2018
Executive Compensation	\$154,435	\$169,183	\$37,417	\$64,537
Other Mandates	–	–	–	–
Total	\$154,435	\$169,183	\$37,417	\$64,537

Comparator Group

Executive compensation is benchmarked every other year with the assistance of compensation consultants, PCI – Perrault, who prepare an analysis of CAE's compensation against compensation practices within the comparator group. The most recent complete executive compensation benchmarking was conducted in FY2018.

The comparator group includes companies that operate in at least one of CAE's market segments, have a similar financial and operational footprint, and with which CAE competes for talent.

CAE's comparator group comprises a broad mixture of relevant Canadian and US companies. CAE's business units compete within several market segments and not all CAE competitors are present in all the segments or publish or provide segment-specific compensation disclosure relevant to CAE. Therefore, CAE includes companies that are active in at least one of its activity segments. The table below indicates the main activities for which the comparator group companies were chosen.

Section 7 (continued)

Executive Compensation

The following criteria are also considered when selecting comparator group companies:

- Head office location
- Company financials (revenue and market capitalization)
- Companies with business operations outside of Canada, reflecting the fact that over 90% of CAE's revenues are generated outside of Canada
- Companies that compete with CAE for talent (in and outside of Canada) reflecting CAE's multinational reality. In FY2019, two out of three of the President and CEO's direct reports leading a business unit were based outside of Canada.
- Companies with similar business profiles, specifically:
 - o Size
 - o Business mix/industry similarity
 - o Scale of operations outside home country
 - o Talent requirements/primary competitors for talent

During FY2018, with the assistance of PCI-Perreault, the CAE comparator group was updated to ensure all companies still meet the criteria outlined on the previous page. For FY2019, the same comparator group was considered. Thus, the following is the list of comparator companies adopted by the HRC for FY2019 benchmarking exercise:

Compensation Policy and Objectives

CAE's executive compensation program consists of five main elements: base salary, short-term incentive, long-term incentives (Restricted Share Units, Performance Share Units and stock options), pension, and perquisites and benefits. The table below illustrates CAE's compensation policy. Total target compensation is positioned at the median of the comparator group but may result in paying above the median for superior performance.

President and CEO

Other NEOs' Average

Base salaries

The base salaries of CAE's executives are positioned at the median of the comparator group. While an executive's salary is generally targeted at a specific range around the market median, such salary may vary depending on the individual's performance and level of experience.

Base salaries are set to recognize the position's scope and responsibilities, and individual experience and performance.

Base salaries are reviewed by the HRC annually, considering individual achievements, general performance, benchmark information and market conditions.

Annual short-term incentive program (STIP)

The STIP provides for an annual cash incentive for executives and management employees based on CAE's consolidated performance and individual achievements (KPIs for the President and CEO and his direct reports).

The annual short-term incentive plan motivates the achievement of specific annual financial and operational results.

Financial targets and KPIs are established by the Board of Directors for the President and CEO at the beginning of each fiscal year; the same financial targets apply for the STIP globally.

Starting in FY2019, STIP for all NEOs was modified to be based 100% on overall CAE results to reinforce collaboration across all regions and business units. The focus on business results will remain important and will be reflected through the individual STIP multiplier for the business unit Group Presidents.

Thus, the split between CAE consolidated corporate results and individual KPIs for executives in FY2019 was 75% and 25% respectively.

Section 7 (continued)

Executive Compensation

Financial and non-financial targets were specifically based on the four metrics detailed below.

- Earnings per Share (“**EPS**”)¹
- Order Intake¹
- Return on Capital Employed (“**ROCE**”)¹
- Customer Satisfaction

The combination of financial and customer satisfaction metrics at the corporate and business unit levels ensures all executives are accountable for CAE executing on its vision of being the “Training Partner of Choice”.

The respective weighting of each individual metric is as follows:

Why EPS’?

Intended to keep management focused on Earnings per Share achievement.

Why Order Intake’?

Demonstrates the level of growth in sales for the Company’s products and services, thus is a representation of future operational growth.

Why ROCE’?

ROCE is a measure that is used to quantify the value that is generated by our assets. It demonstrates the profitability that is generated by the investments made by the Company, such as CAPEX, R&D, etc. Within the Healthcare business unit, ROCE is replaced with cashflow to ensure the business unit President focuses on measures directly under her control, specifically the amount of cash generated and invested in the unit.

Why Customer Satisfaction’?

Supports CAE’s “Training Partner of Choice” value proposition as it is critical in ensuring sustained and continued business with CAE’s clients, thus further strengthening the Company’s market leader position for the future.

KPIs for the President and CEO and his direct reports are quantitative and qualitative performance targets set for the reporting business units as well as the corporate functions. These relate to, among others, quality measures, customer experience, operational efficiency, technology enhancements, risk management, and leadership development and employee engagement.

Short-term incentives are paid in the form of cash bonuses based on a percentage of salary that varies depending on the level of responsibility. Actual STIP awards can reach up to two times target levels depending upon the achievement of the previously noted performance metrics and personal objectives. The STIP payments for the President and CEO’s direct reports are approved by the HRC, and by the Board in the case of the President and CEO, following a review at year-end that considers overall corporate and individual performance and other factors. Effective FY2017, Canadian and US-based executives can elect to defer a portion of, or their entire STIP payment to the Executive Deferred Share Unit Plan. Such deferred amount is converted to a number of DSUs, one DSU being equal in value to one Common Share of CAE (see details under “**Executive Deferred Share Unit Plan**”).

¹ The terms “Earnings per share (EPS) before specific items”, “Return on capital employed (ROCE)” and “Order Intake” are non GAAP financial measures and do not have any standardized meaning under IFRS. Therefore, they are unlikely to be comparable to similar measures presented by other issuers. Refer to the section “Non-GAAP and other financial measures” in our fourth quarter and year ended March 31, 2019 MD&A for more details.

Section 7 (continued)

Executive Compensation

The table below outlines target and maximum short-term incentive levels by position:

Position	STIP Range as % of Base Salary	
	Target	Maximum
President and CEO	100%	200%
Group Presidents and Vice President, Finance and CFO	75%	150%
Vice-Presidents reporting to President and CEO	45%	90%

In accordance with the STIP terms, the overall corporate performance multiplier is capped at 100% if the EPS result does not meet the target approved by the Board of Directors.

Long-term incentive plan (LTIP)

The LTIP is designed to reward executives for their contribution to the creation of Shareholder value. These awards are considered annually as part of the total compensation review. The value of the LTIP grants varies by the level of responsibility and is granted within the range detailed below, based on each executive's performance as assessed by the HRC and the Board.

CAE's long-term incentive plan aligns management's interests with Share price growth and related Shareholder value creation, and rewards sustained market performance.

Position	LTIP Range as % of Base Salary	
	Minimum	Maximum
President and CEO ¹	250%	350%
Group Presidents and Vice President, Finance and CFO	100%	250%
Vice-Presidents reporting to President and CEO	40%	150%

¹ For FY2020, the LTIP range will be increased to align with the benchmark of CAE comparator group, resulting in a minimum and maximum of 300% and 400% respectively.

For FY2019, CAE's LTIP was comprised of Performance Share Units ("PSUs"), stock options and Restricted Share Units ("RSUs"). All NEOs were eligible for an annual grant under each of these plans, and awards were allocated as follows:

Stock Options

The purpose of the Employee Stock Option Plan ("ESOP") is to provide key employees of CAE with an opportunity to purchase Common Shares and to benefit from the related Share price appreciation, thus aligning closely the interests of such employees with those of our Shareholders, and to increase the ability of CAE to attract and retain individuals with exceptional skills. The ESOP was amended on June 15, 2016 and approved by Shareholders at the 2016 Annual and Special Shareholder Meeting on August 10, 2016.

Following the Shareholder approval of an additional 10,000,000 Shares under the ESOP at the 2016 Annual and Special Shareholder Meeting on August 10, 2016, the ESOP provides for the issuance of a maximum of 16,381,839 Common Shares upon exercise of options granted under the plan. The total maximum number of Shares available under the ESOP represents approximately 5% of CAE's issued and outstanding Shares.

The HRC establishes rules and guidelines for the administration of the ESOP, selects the employees to whom awards are granted, determines the types of awards to be granted and the number of Shares covered by such awards, sets the terms and conditions of such awards and cancels, suspends and amends awards. The HRC has the sole discretion to make determinations under, and to interpret, the ESOP.

Section 7 (continued)

Executive Compensation

The number of options issued to each NEO under the ESOP varies as a percentage of the executive's base salary divided by the fair value of an option at that time, which is determined by applying the Black-Scholes option-pricing valuation methodology. The number of outstanding options, as well as the other LTIP elements are considered by the HRC in determining how many new options may be granted in a fiscal year. During FY2019, stock options were granted to the NEOs and other key employees of CAE and its subsidiaries. CAE's burn rate (the ratio of options granted vs CAE's issued and outstanding Shares) was 0.65% in FY2019.

The plan permits stock option grants having a term of up to ten years (should the expiry date for an option fall within a blackout period or within nine business days following the expiration of a blackout period, such expiry date shall be automatically extended to the tenth business day after the end of the blackout period). However, options issued as of FY2012 have a term of seven years. In prior years, the option term was six years. Vesting is incremental in 25% tranches, starting on the first anniversary date of the grant.

- **Option term for all options granted effective FY2012: 7 years**
- **Vesting: 25% per year starting on the first anniversary of the grant date**
- **FY2019 burn rate (ratio of granted options during the year versus issued and outstanding Shares): 0.65%**

The ESOP permits, at the discretion of the HRC, the surrender and cancellation without re-issue of an in-the-money option for cash equal to the fair market value of the Share underlying the option less the option exercise price, in lieu of the Share itself (the fair market value of a Share shall be the closing price of a Share on the TSX on the trading day on which the election described above is made).

The ESOP includes the following provisions:

Eligibility

Any salaried employee of CAE or its subsidiaries is eligible to participate in the ESOP. The ESOP does not permit grants to non-employee Directors. Subject to ESOP provisions related to employee death, retirement, or termination without cause, no option granted under ESOP may be exercised unless that employee wishing to exercise such option is currently employed by CAE or one of CAE's subsidiaries and has served continuously in such capacity since the date of the grant of such option. The ESOP does not contain any financial assistance provisions to facilitate employees' participation in the program.

Limitations on Grants

An ESOP participant (which may include an employee management insider of CAE) may not hold options on more than 5% (on an undiluted basis) of the issued and outstanding Common Shares. The number of Common Shares issuable to insiders of CAE at any time under all security-based compensation arrangements cannot exceed 10% of the issued and outstanding Common Shares. The number of Common Shares issued to insiders of the Company within any one-year period under all security-based compensation arrangements cannot exceed 10% of the Company's issued and outstanding Shares.

Exercise Price

The weighted average price of the Common Shares on the TSX on the five trading days immediately preceding the grant date (if the grant date falls within a blackout period or within five trading days following the end of a blackout period, the grant date shall be presumed to be the sixth trading day following the end of such blackout period).

Executive Compensation

Termination of Employment

Death: options may be exercised to the extent that the optionee was entitled to do so at the time of death. The options can be exercised only during the period expiring on the day that is earlier of six months following the date of death and the option termination date.

Retirement: all unvested options shall continue to vest following the retirement date. Such retired optionee shall be entitled, (a) to exercise any vested options held as of the retirement date until the termination date for each such option; and (b) to exercise any options vesting after the retirement date only during the 30-day period following the vesting date of the post retirement vesting options, after which any such options which remain unexercised shall expire.

Involuntary termination for cause: each unvested option shall terminate and become null, void and of no effect on the date on which the optionees ceases to serve the Company.

Involuntary termination without cause and resignation: the optionee has the right for a period of 30 days (or until the normal expiry date of the option if earlier) from the date of ceasing to be an employee to exercise his or her option to the extent that he/she was entitled to exercise it on the date of ceasing to be an employee. Upon the expiration of such 30-day period (subject to extension if the end of the period falls within a blackout period), each option shall terminate and become null, void and of no effect on the date on which such optionee ceases to serve the Company.

Transferability/Assignment of Options

Options are not transferable or assignable otherwise than by will or by operation of estate law.

Financial Assistance

The ESOP does not contain any financial assistance provisions to facilitate employees' participation in the program.

Amendments

The ESOP provides that its terms, as well as those of any option, may be amended, terminated or waived in certain stated circumstances. The ESOP specifies in what situations Shareholder approval is required.

Executive Compensation

Amendments not Requiring Shareholder Approval

The HRC has the authority, in accordance with and subject to the terms of the ESOP, to amend, suspend or terminate the ESOP or any option granted under the ESOP without obtaining Shareholder approval to:

- (a) (i) amend any terms relating to the granting or exercise of options, including the terms relating to the eligibility for (other than for non-executive Directors) and limitations or conditions on participation in the ESOP, the amount and payment of the option price (other than a reduction thereof) or the vesting, exercise, expiry (other than an extension of the termination date except as contemplated in the ESOP), assignment (other than for financing or derivative-type transaction purposes) and adjustment of options, or (ii) add or amend any terms relating to any cashless exercise features;
- (b) amend the ESOP to permit the granting of Deferred or Restricted Share Units under the ESOP or to add or amend any other provisions which result in participants receiving securities of the Company while no cash consideration is received by the Company;
- (c) make changes that are necessary or desirable to comply with applicable laws, rules or regulations of any regulatory authorities having jurisdiction or any applicable stock exchange;
- (d) correct or rectify any ambiguity, defective provision, error or omission in the ESOP or in any option or make amendments of a “housekeeping” nature;
- (e) amend any terms relating to the administration of the ESOP; and
- (f) make any other amendment that does not require Shareholder approval by virtue of the ESOP, applicable laws or relevant stock exchange or regulatory requirements;

provided such amendment, suspension or termination (i) does not adversely alter or impair any previously granted option without the optionee's consent and (ii) is made in compliance with applicable laws, rules, regulations, by-laws and policies of, and receipt of any required approvals from, any applicable stock exchange or regulatory authorities having jurisdiction.

Amendments Requiring Shareholder Approval

The ESOP provides that Shareholder approval is required to make the following amendments:

- (a) increase the maximum number of Shares issuable under the ESOP, except in the case of an adjustment pursuant to Article VIII thereof (subdivisions, consolidations or reclassifications of Shares or other such events);
- (b) increase the number of Shares that may be issued to insiders or to any one optionee under the ESOP, in both cases except in the case of an adjustment pursuant to Article VIII thereof (subdivisions, consolidations or reclassifications of Shares or other such events);
- (c) allow non-employee Directors to be eligible for awards of options;

Change of Control Change in the beneficial ownership or control over the majority of the Shares of CAE or the sale of all or substantially all of CAE's assets. In such circumstance, the vesting of all options issued would be accelerated.

Adjustments If certain corporate events affect the number or type of outstanding Common Shares, including, for example, a dividend in stock, stock split, stock consolidation or rights offering, adjustments will be made to the terms of the outstanding option grants as appropriate in such circumstances.

A copy of the ESOP can be accessed on SEDAR at www.sedar.com or on EDGAR at www.sec.gov.

The below chart is based on March 31, 2019 information. As of that date, the weighted average remaining contractual life for the outstanding options was 4.68 years.

	Number of Securities to be Issued Upon Exercise of Outstanding Options	Percentage of CAE's Outstanding Share Capital Represented By Such Securities	Weighted-Average Exercise Price of Outstanding Options	Number of Securities Remaining Available For Future Issuance Under Equity Compensation Plans (Excluding Securities Reflected in 1st Column)	Percentage of CAE's Outstanding Share Capital Represented by Such Securities
Employee Stock Option Plan	6,504,125	2.45%	\$20.41	6,941,989	2.62%

The following table details the annual burn rate for the last three fiscal years ended March 31:

	2019	2018	2017
Annual burn rate	0.65%	0.76%	0.77%

This burn rate indicates the number of Stock Options granted in each year as a percentage of the weighted average number of securities outstanding in the applicable fiscal year. CAE monitors its long-term dilution by limiting the equity compensation to reasonable awards under the ESOP.

Section 7 (continued) Executive Compensation

Performance Share Unit Plan

In FY2015, CAE adopted a Performance Share Unit Plan (“PSUP”) for executives and senior management of CAE and its subsidiaries. The PSUP helps ensure that executives’ long-term incentive compensation includes an element directly tied to the achievement of the CAE strategic plan.

The determination of the number of PSUs to be granted to a participant is made by dividing the dollar value of the PSU grant (a percentage of the participant’s base salary) by the weighted average market price of the Common Shares on the TSX on the five trading days preceding the date of grant (if the grant date falls within a blackout period or within five trading days following the end of a blackout period, the date of grant shall be presumed to be the sixth trading day following the end of such blackout period).

A PSU is equal in value to one Common Share of CAE. PSUs vest three years from the grant date, provided the participant is still employed by the Company on the vesting date. Further, FY2016 PSU grant vesting is subject to the EPS achievement compared to target for the fiscal year ended on March 31st immediately preceding the grant vesting date.

Starting FY2017, the EPS achievement is determined each year and a final PSU payout multiplier is applied as follows:

However, the final payout is only issued at the end of three years, provided the participant is still employed by the Company on the third anniversary of the grant date. This change was introduced to promote continuous improvement in our performance against the strategic plan and to improve the retention value of the plan.

EPS targets are determined on the basis on the strategic plan approved by the Board of Directors.

Based on the EPS result and the EPS payout grid approved by the HRC in respect of the original grant, the target rate of granted units is multiplied by a factor ranging from 0% to 200%. PSUP participants are entitled to receive their vested PSUs at the average fair market value of the Common Shares on the TSX for the 20 trading days preceding the final vesting date of the grant.

The PSUP is an unfunded plan and non-dilutive as all vested PSUs are paid out in cash. Therefore, no disclosure of the annual burn rate is provided. For details concerning the treatment of PSUs following the executive termination, resignation, retirement and change of control, please refer to Section 7 – “**Executive Compensation – Termination and Change of Control Benefits**”.

- **PSUP directly ties CAE executives to the achievement of the CAE strategic plan.**
- **PSU is equal in value to one Common Share of CAE.**
- **PSUP is non-dilutive as all vested PSUs are paid out in cash.**
- **Vesting: 3-year cliff subject to the achievement of set performance criteria and the participant’s continued employment with CAE.**
- **FY2019 performance condition: EPS targets as set in the 3-year strategic plan approved by the Board of Directors.**
- **Maximum payout multiplier set at 200%.**

Section 7 (continued)

Executive Compensation

Restricted Share Unit Plan

In FY2015, CAE adopted a time-based Restricted Share Unit Plan (“**RSUP**”) for executives and senior management of CAE and its subsidiaries. The determination of the number of RSUs to be granted to a participant is made by dividing the dollar value of the RSU grant (a percentage of the participant’s base salary) by the weighted average market price of the Common Shares on the TSX on the five trading days preceding the date of grant (if the grant date falls within a blackout period or within five trading days following the end of a blackout period, the date of grant shall be presumed to be the sixth trading day following the end of such blackout period).

- **RSU is equal in value to one Common Share of CAE.**
- **RSUP is non-dilutive as all vested RSUs are paid out in cash.**
- **Vesting: 3-year cliff subject to the participant’s continued employment with CAE.**

The RSU is equal in value to one Common Share of CAE. RSUs are granted for a three-year period and vest on the third anniversary of the grant based on the participant’s continued employment with CAE until that time. RSUP participants are entitled to receive their vested RSUs at the average fair market value of the Common Shares on the TSX for the 20 trading days preceding the final vesting date of the grant.

The RSUP is an unfunded plan and non-dilutive as all vested RSUs are paid out in cash. Therefore, no disclosure of the annual burn rate is provided. For details concerning the treatment of RSUs following the executive termination, resignation, retirement and change of control, please refer to Section 7 – “**Executive Compensation – Termination and Change of Control Benefits**”.

Executive Deferred Share Unit Plan

In FY2017, CAE adopted an Executive Deferred Share Unit Plan (“**Executive DSUP**”). The purpose of the plan is to attract and retain talented individuals to serve as officers and executives of the Company and to help them build their Share ownership in CAE, thus promoting a greater alignment of interests between the executives and the Shareholders of the Company.

Under the Executive DSUP, Canadian and US-based executives can elect to defer a portion of or their entire short-term incentive payment to the Executive DSUP on an annual basis. Such deferred short-term incentive amount is converted to DSUs based on the volume weighted average price of the Common Shares on the TSX during the last five trading days prior to the date on which such incentive compensation becomes payable to the executive. If the five-trading-day period falls within a blackout period, then the volume weighted average price is calculated based on the five-trading day period following the end of such blackout period.

- **Executive DSUP helps our executives build their Share ownership in CAE.**
- **Allows for elective deferral of STIP to DSUs.**
- **DSU is equal in value to one Common Share of CAE.**
- **DSUs are only payable when the executive leaves CAE.**
- **Executive DSUP is non-dilutive as all DSUs are paid out in cash.**

A DSU is equal in value to one Common Share of CAE. The DSUs accrue dividend equivalents payable in additional units in an amount equal to dividends paid on Common Shares. The DSUs are only payable when the executive leaves the Company. Upon or within a defined period following the termination of their employment, DSU holders are entitled to receive a lump sum cash payment equal to the number of DSUs credited to their account as of that date multiplied by the volume weighted average price of the Common Shares on the TSX during the last five trading days prior to the settlement date.

Inactive Equity-Based Plans with Legacy Participants

Some NEOs have outstanding participation in the following long-term incentive plans, which are no longer active (no further awards are made under the plans) but have yet to be fully paid out.

Section 7 (continued)

Executive Compensation

Fiscal 2005 Deferred Share Unit Plan

CAE adopted a Long-Term Incentive Deferred Share Unit Plan (“**LTUP**”) in FY2005 that, as amended from time to time, applies to all grants made thereafter.

Deferred Share Units (“**LTUs**”) vest in 20% increments over five years, commencing one year after the grant date. LTUs accrue dividend equivalents payable in additional units in amounts equal to dividends paid on Common Shares. LTUs are only redeemable in cash, following the unit holder’s retirement or termination of employment. No LTUs have been granted by CAE after FY2014.

Fiscal 2004 Deferred Share Unit Plan

In FY2004, CAE adopted a Long-Term Incentive Deferred Share Unit Plan (“**FY2004 LTUP**”) for executives of CAE and its subsidiaries to partially replace the grant of options under CAE’s ESOP. No FY2004 Long-Term Incentive Deferred Share Units (“**FY2004 LTUs**”) have been granted by CAE since FY2004. All FY2004 LTUs are fully vested for remaining plan participants. FY2004 LTUs accrue dividend equivalents payable in additional units in amounts equal to dividends paid on Common Shares. FY2004 LTUs are only redeemable in cash, following the unit holder’s retirement or termination of employment.

Deferral of cash incentives

CAE had a Deferred Share Unit Plan (“**legacy DSUP**”) for executives under which an executive elected to receive cash incentive compensation in the form of Deferred Share Units (“**legacy DSUs**”). A legacy DSU is equal in value to one Common Share of CAE. The units were issued based on the average closing board lot sale price per Share of Common Shares on the TSX during the last 10 days on which such Shares traded prior to the date of issue. The legacy DSUs accrue dividend equivalents payable in additional units in an amount equal to dividends paid on Common Shares. Upon or within a defined period following termination of their employment, legacy DSU holders are entitled to receive the fair market value of the equivalent number of Common Shares based on the average closing board lot sale price per Share of Common Shares on the TSX during the last 10 days on which such Shares traded prior to the settlement date.

Pension, Benefits and Perquisites

Pension Benefits

Eligible employees participate in the Retirement Plan for Employees of CAE Inc. and Associated Companies. Executives at a vice president level and higher participate in the Pension Plan for Designated Executive Employees of CAE Inc. and Associated Companies (the “**Designated Pension Plan**”), and in the Supplementary Pension Plan of CAE Inc. and Associated Companies (the “**Supplementary Pension Plan**”). The Designated Pension Plan is a defined benefit plan to which CAE and participants contribute.

- **Promote long-term employment with the Company.**
- **Pensions payable under the Supplementary Pension Plan are conditional upon compliance with non-competition and non-solicitation clauses.**
- **No extra years of service are generally granted under the pension plans.**

Pensions payable under the Supplementary Pension Plan are paid directly by CAE. See Section 7 – “**Executive Compensation – Pension Arrangements**” for details about the value of the accrued benefit to each of the NEOs. Except as discussed in “Change in Control Contracts” below, CAE does not grant extra years of credited service under its pension plans. Receipt of pension benefits under the Supplementary Pension Plan is conditional upon compliance with non-competition and non-solicitation clauses.

Section 7 (continued)

Executive Compensation

Employee Stock Purchase Plan

Under the CAE Employee Stock Purchase Plan, employees may make contributions towards the purchase of Common Shares of up to 18% of their annual base salary. Under the plan, CAE contributes \$1 for every \$2 of employee contributions, to a maximum contribution of 3% of the participant's annual base salary.

- **Provide employees with a Share ownership building vehicle and a savings vehicle beyond the pension plan.**

Change in control contracts

Three out of five NEOs are entitled to termination of employment benefits following a change of control of CAE where the executive's employment is terminated without cause within two years following the change of control. This is to safeguard the Company's normal course of business in case of change of control. See Section 7 – "**Executive Compensation – Termination and Change of Control Benefits**" for a summary of the impact of various events on the different compensation programs for the NEOs and details about the approximate incremental value that could be realized by a NEO following termination or a change of control event.

Perquisites

Flexible perquisites provide executives with a cash allowance to cover certain expenses such as vehicle expenses, club memberships, personal legal and tax advice, and a health spending account. Such allowance is typical for senior executive positions and is capped at predetermined levels by position.

Executive Share Ownership Requirements

Under CAE's Share Ownership Guidelines Policy, each executive is expected to own a minimum number of Common Shares and units under the DSUP and LTUP. The value of the required holding in Common Shares and units under the DSUP and LTUP represents:

Executives	% of Base Salary
President and CEO	500%
Group Presidents and Vice President, Finance and CFO	250%
Other executives reporting directly to CEO	200%

The required holding may be acquired over a five-year period from the date of hire or promotion to the executive position. Following the adoption of the RSUP in FY2015, the HRC decided to include 50% of the RSUs granted when calculating the Share ownership requirement as the executives are required to buy Common Shares with after-tax proceeds from the RSUs vested until they reach their minimum ownership requirements. Since February 2014, the Share ownership requirements are to be tested monthly until the requirement is met. At the time the required Share ownership value is reached, the minimum number of Shares/units to be held by the executive is locked-in and the executive is required to hold at least this number of Shares/units until retirement or termination of employment.

In addition, for each option exercise, the President and CEO has agreed to, and the Group Presidents and Vice President, Finance and CFO must retain ownership or control over CAE Shares equivalent in value to 25% of the net profit realized on such option exercise for the duration of their employment with CAE. This policy encourages all key executives to hold a meaningful ownership interest in CAE to further align their interests with those of our Shareholders.

- **Share ownership requirements must be achieved within 5 years from hire or promotion to executive position.**
- **Only Common Shares, DSUs and 50% of RSUs are included.**
- **President and CEO, CFO, and Group Presidents retain 25% of the net profit realized from option exercise in CAE Shares for the duration of their employment at CAE.**

Section 7 (continued)

Executive Compensation

As of March 31, 2019, all NEOs held CAE Shares and units under the DSUP, LTUP and RSUP valued in excess of the ownership guidelines. The table below sets forth the minimum number of Shares/units to be held by the NEOs who have already met the requirement, the required value in dollars to meet the ownership guidelines and the actual value held as a percent of the annual base salary.

NEO	Share Ownership Requirement as Percent of Salary (%)	Ownership Status	Target Date	Number of Shares/Units to be Held Once Requirement Met (#)	Value Required to Meet Guidelines ¹ (\$)	% Completion to Meet Share Ownership Guidelines (%)	Value Held in Shares/Units ² (\$)	Value of Shares/Units Held as Percent of Salary ³ (%)
Marc Parent	500	Already Met	N/A	286,858	4,300,000	100	17,457,171	1,735
Sonya Branco	250	Already Met	N/A	36,553	1,087,500	100	1,640,255	377
Gene Colabatistto	250	Already Met	N/A	73,302	1,100,250	100	3,541,321	559
Nick Leontidis	250	Already Met	N/A	65,044	975,000	100	8,691,571	1,841
Mark Hounsell	200	Already Met	N/A	28,093	835,800	100	977,200	234

1 If the requirement is already met, the value that was required at the later of: February 2014 (the date at which Share ownership started to be tested monthly) or the time the NEO met the ownership requirements.

2 Calculated based on the number of Shares, DSUs, LTUs, and 50% of RSUs held as of March 31, 2019 and the average closing Share price during five trading days preceding March 31, 2019 (\$29.75) in accordance with the Share Ownership Guidelines Policy.

3 Calculated based on the annual base salary as of March 31, 2019. For Mr. Colabatistto, the base salary was converted to Canadian dollars using March 29, 2019 exchange rate of \$1.28.

The following table details the total value of all accumulated Common Shares, LTUs and RSUs of the President and CEO as of March 31, 2019. The table excludes PSUs and stock options as their ultimate value is uncertain.

Equity Instrument	Number of Units ¹ (#)	Total Value ² (\$)
Common Shares	269,821	7,989,406
FY2004 LTUs	42,183	1,249,039
LTUs	227,782	6,744,595
RSUs ³	93,940	2,781,563
Total	633,726	18,764,633

1 Represents the number of all Common Shares, LTUs and RSUs held as of March 31, 2019.

2 The total value disclosed is calculated by multiplying the number of Shares/units by the closing price of the Common Shares on the TSX on March 29, 2019, which was \$29.61.

3 RSUs are subject to a time-vesting condition, specifically vesting three years from the grant date.

Risk Mitigation

The HRC and the Board of CAE believe that executive compensation should be contingent on performance relative to pre-established targets and objectives. Also, management must achieve targets and objectives in a manner consistent with legal standards, as well as CAE's ethical standards and internal policies. The HRC and the Board regularly review the Company's compensation policies and practices to ensure that they do not encourage inappropriate risk-taking.

There are numerous risk management practices in place to ensure CAE compensation programs do not encourage inappropriate short-term risk-taking behaviors, but rather focus on long-term Shareholder value creation.

Section 7 (continued)

Executive Compensation

The HRC conducts an annual compensation risk assessment with the assistance of its independent compensation consultant Hugessen to identify potential risks associated with CAE's compensation programs, practices and policies. In FY2019, the assessment concluded that the risks associated with the compensation programs are reasonably unlikely to have a material adverse effect on the Company.

The following characteristics of our compensation program in FY2019 were identified as having risk-mitigating effects:

- **A compensation risk assessment** is completed annually by the HRC's independent compensation consultant Hugessen.
- **Our mix of short, medium and longer-term compensation** encourages CAE executives to take a balanced view and mitigates against excessive risk-taking or overly conservative behavior.
- **Our emphasis on long-term performance:** at target, only 19% to 21% of a NEO's target total direct compensation is tied to short-term results (annual short-term incentive award), while 40% to 64% is tied to long-term incentives (PSUs, options and RSUs). For purpose of this paragraph, target total direct compensation is defined as the sum of base salary, target STIP and target LTIP.
- **Our cap on NEO annual short-term incentive awards** is directly linked to, and determined by, overall corporate financial performance (as measured by the STIP financial targets) and individual performance, so the NEO cannot reap an excessive reward based only on his/her own performance against financial or other targets.
- **Threshold level of corporate performance and a cap on annual incentive awards** provide that the annual short-term incentive award payout can be zero, if minimum threshold levels of corporate and individual performance are not met and is capped at 200% where corporate and individual performance objectives are exceeded, to prevent excessive payouts and to act as a disincentive against excessive risk-taking. Moreover, for the annual short-term incentive award, the corporate performance multiplier is capped at 100% if the EPS target is not met.
- **Our clawback policy for executives** provides that CAE may seek repayment of incentive compensation for years in which financial results are restated as a result of the executive's fraudulent or intentional misconduct or in the event of the executive misconduct constituting cause for dismissal (such as, but not limited to, a breach of the CAE Code of Business Conduct or a breach of employment duties or obligations to the Company), or following a breach by the executive of his/her post-employment duties and obligations to the Company.
- **Our anti-hedging policy** prohibits executives from purchasing or otherwise entering into financial instruments, including prepaid variable forward contracts, instruments for the short sale or sale of call or put options, equity swaps, collars, or units of exchangeable funds designed to hedge or offset a decrease in the market value of any CAE securities, including but not limited to DSUs they hold.
- The President and CEO has agreed to, and the Vice President, Finance and CFO, and the Group Presidents must **retain ownership or control over CAE Shares equivalent in value to 25% of the net profits from any option exercise** until their retirement or termination. This reduces the risk of short-term maneuvers designed to temporarily lift the CAE Share price to the detriment of sustainable long-term results.
- **CAE's Corporate Policies and Procedures** preclude individual executives from acting unilaterally without approval in the case of material transactions identified in those policies.
- **Our Share Ownership Guidelines Policy** for the NEOs to own multiples of their annual base salary in CAE Shares (see Section 7 – "**Executive Compensation – Executive Share Ownership Requirements**" above for details) discourages excessive short-term risk-taking given the executives' exposure to the longer-term CAE Share price movements through both their direct ownership and the LTIP elements they hold.
- **Optional deferral of the annual short-term incentive to the Executive DSUP** further aligns the executives with the long-term interests of our Shareholders through additional exposure to the long-term CAE Share price movements.

Section 7 (continued)

Executive Compensation

- **Use of external compensation consultants** ensures that the HRC gets an independent opinion on our executive compensation programs to validate the plans' alignment with our pay-for-performance philosophy and market best practices.

After considering the overall compensation program and taking into account both its knowledge of the past performance of the CAE management team and the nature of CAE's various businesses, the HRC is not aware of any risks arising from the CAE's compensation policies and practices that would be reasonably likely to have a material adverse effect on CAE.

Determination of the NEOs' Compensation in FY2019

Base salary

The salaries of the President and CEO and other NEOs are determined in accordance with CAE's compensation philosophy and policy, and are reviewed and approved, in the case of the President and CEO, annually by the independent members of the Board of Directors. The HRC reviews benchmark data to ensure that the President and CEO's and his direct reports' total direct compensation (base salary, short-term and long-term incentives) are in line with CAE's compensation philosophy.

Short-Term Incentive Plan – Corporate and individual performance

75% of short-term incentive awards for the President and CEO and other NEOs corporate-wide responsibilities was based on the achievement of corporate performance metrics, namely EPS, Order Intake, ROCE and Customer Satisfaction, as detailed under Section 7 – “**Executive Compensation – Annual Short-Term Incentive Program**”.

The table below illustrates the respective weights given to each FY2019 CAE corporate performance metric, as well as the actual results and related payout levels.

	Weighting	Threshold	Target	Maximum	Achieved	Payout Level

The HRC believes the evaluation of performance and payouts under the Annual Short-Term Incentive Program is one of its key responsibilities. The annual incentive payments are based predominantly on the achievement of financial results as compared to budgeted and targeted amounts set prior to the beginning of each applicable financial year. Often, actual results for a given year are impacted by events that either materialized during the year or which management could not reasonably predict or estimate in these budgeted amounts. As such, the HRC considers it important to use judgment, as appropriate, when evaluating performance results. Therefore, actual bonuses paid to executives (including NEOs) are not purely formulaic. Rather, the Board retains the discretion to adjust the final bonus payable (either positively or negatively) based on evaluation of other relevant factors. For FY2019, after careful consideration of CAE's performance, the Board exercised its discretion to make adjustments to fully reflect FY2019 corporate performance. The Weighted Average STIP Payout was adjusted upwards from 146% to 170% to take into consideration the progress made towards achieving strategic objectives and unprecedented operational achievements correlating with sustainable Shareholder value creation. Among other things, the Board took into consideration the unprecedented record level of Order Intake, the significant efforts expanded by management to close ahead of schedule the purchase of Bombardier's Business Aviation Training business, CAE's largest-ever acquisition, and the AOCE acquisition and integration. The results of this decision for the NEO actual payout levels are reflected in the FY2019 STIP Payouts table below. The decision positively impacted 1,250 participating employees, including the five NEOs and resulted in a total incremental cost of \$4.6 million for CAE.

Executive Compensation

The remaining 25% of the NEOs' annual incentive is awarded based on them achieving their business unit or function pre-determined individual objectives. As with other performance measures, such achievement is translated into an individual multiplier that ranges from 0% to 200%. For FY2019, the individual performance multiplier for the President and CEO was 200% while the average multiplier for other NEOs was 188%. The HRC determined the President and CEO's individual performance multiplier and reviewed and approved the President and CEO's recommendations on the individual performance multiplier for his direct reports following a detailed discussion about corporate and individual performance (described in detail in the next section).

The table below sets out the STIP targets, maximums and actual payout levels for the NEOs earned for FY2019, expressed as a percentage of base salary:

Position	Target	Max	Actual Payout Level
President and CEO	100%	200%	178%
Vice President, Finance and CFO	75%	150%	133%
Group President, Defence & Security	75%	150%	130%

FY2016 PSU Payouts

The vesting of the PSUs granted in FY2016 was tied to the performance of CAE EPS compared to predetermined target at the end of FY2018. As per the terms of the FY2016 PSUP, the HRC reviewed CAE's EPS performance for the fiscal year ended March 31, 2018 and approved the following results for Performance Share Units granted in FY2016:

	Threshold	Target	Maximum	Achieved	Payout Level
PSU Payout	0%	100%	200%		
EPS FY2018	\$0.88	\$0.98	\$1.08	\$1.10 ¹	
PSU Payout					200%

¹ Adjusted for certain elements as per plan provisions

The PSUs were paid out in FY2019, in June 2018. The final cash payout was based on a Share price of \$24.71, the average fair market value of the Common Shares on the TSX for the 20 trading days preceding the final vesting date of the grant, which was May 29, 2018. The actual amounts paid to each eligible NEO in FY2019 are disclosed in the table "**Incentive Plan Awards – Value Vested or Earned During the Year**".

¹ The terms “earnings per share (EPS) before specific items”, “Order Intake” and “Return on capital employed (ROCE)” are non GAAP financial measures and do not have any standardized meaning under IFRS. Therefore, they are unlikely to be comparable to similar measures presented by other issuers. Refer to the section “Non-GAAP and other financial measures” in our fourth quarter and year ended March 31, 2019 MD&A for more details.

The Board reviewed Mr. Parent’s achievements against each of these objectives in detail, and considered he had exceeded most of his objectives, as noted above. Thus, for FY2019, Mr. Parent received a short-term incentive award of \$1,785,830 based on the corporate financial performance against the STIP financial objectives and his other accomplishments. The level of achievement was 170% against the short-term incentive plan performance targets, which comprise 75% of his STIP. The Board awarded Mr. Parent a 200% achievement rate on his personal KPIs, which comprise the remaining 25% of his STIP. Thus, his aggregate annual incentive payment represented 178% of his target bonus.

Not all details of the NEO targets have been disclosed due to the potential competitive prejudice to CAE of doing so. The NEOs' performance against their objectives was reviewed by the HRC after the end of FY2019, in addition to having been reviewed by the President and CEO during the fiscal year.

Shareholder Return Performance Graph

The following graph compares the cumulative Shareholder return of the Common Shares with the cumulative returns of each of the S&P/TSX Composite Index and the S&P Aerospace & Defence Index for a five-year period commencing March 31, 2014¹.

Pay for Performance Linkage

The following chart compares the evolution of CAE’s total Shareholder return with the evolution of executive compensation (as disclosed in the Summary Compensation Table) for both the President and CEO and the other Named Executive Officers. The total Shareholder return assumes \$100 invested in Common Shares traded on the Toronto Stock Exchange on March 31, 2014. Values are as at the last trading day in the month of March in the specified years, including the reinvestment of dividends.

Change in President and CEO and Average NEO Compensation vs. Total Shareholder Return

Notes:

1 In FY2017, the former CFO’s compensation was included up to his resignation from the Company on May 30, 2016.

The President and CEO’s and the NEO’s total compensation is not specifically based on the performance of CAE’s Common Shares on the TSX, but rather on the overall Company financial and operational performance.

In general, the trend in the President and CEO’s total compensation follows the trend in the CAE’s total Shareholder return. The performance graph shows a steady, year-over-year increase of CAE’s total Shareholder return from FY2014 to FY2016. In FY2017 to FY2019, the increase is accelerated by an outstanding Company performance and related Share price appreciation and total Shareholder return growth. A similar trend can also be observed in the President and CEO’s total compensation, which was increasing year-over-year from FY2014 to FY2016. In FY2017 to FY2019, the President and CEO’s compensation reflected CAE’s growth in EPS, record revenue and backlog results, which resulted in a STIP achievement of 177% on average during these years. With regards to other NEOs, the trend in their average compensation was impacted by changes in the positions of Group Presidents in FY2014. The new incumbents were hired or promoted at lower compensation levels compared to their predecessors given they were new in their roles. This contributed to the average non-CEO NEO compensation being relatively unchanged from FY2014 to FY2016. In FY2017 to FY2019, the average NEO compensation slightly increased as a result of the outstanding Company performance and related STIP payouts.

Pay for Performance Relative to Comparator Group

To ensure alignment between pay and performance, the HRC reviews the competitiveness of CAE President and CEO's compensation in the context of the Company's relative performance across several key financial metrics. The chart below provides a comparison of the three-year President and CEO's compensation and CAE's three-year performance relative to CAE's comparator group (as measured on an "as reported" basis and on a realizable basis).

The chart below depicts the following:

1. The percentile rank of CAE's relative performance on the following metrics (measured over the last three fiscal years against the comparator group):
 - Earnings per Share (EPS) growth;
 - Total Shareholder Return (TSR);
 - Average Return on Capital Employed (ROCE);
 - Average Operating Margin; and
 - Overall performance – based on the weighted performance of each of these four metrics with weightings of 35%, 35%, 15% and 15% respectively.
2. The percentile rank of CAE on *declared* and *realizable* President and CEO compensation over the past three fiscal years as defined below.

Three-year Declared Compensation = Total compensation for a three-year period as reported in the summary compensation table, excluding the pension value.

Three-year Realizable Compensation = Cash compensation plus the market value of equity awards granted over the past three years. It is equal to the sum of salary, the annual incentive paid, long-term incentives and all other compensation excluding the pension value. Long-term incentive values are based on the following:

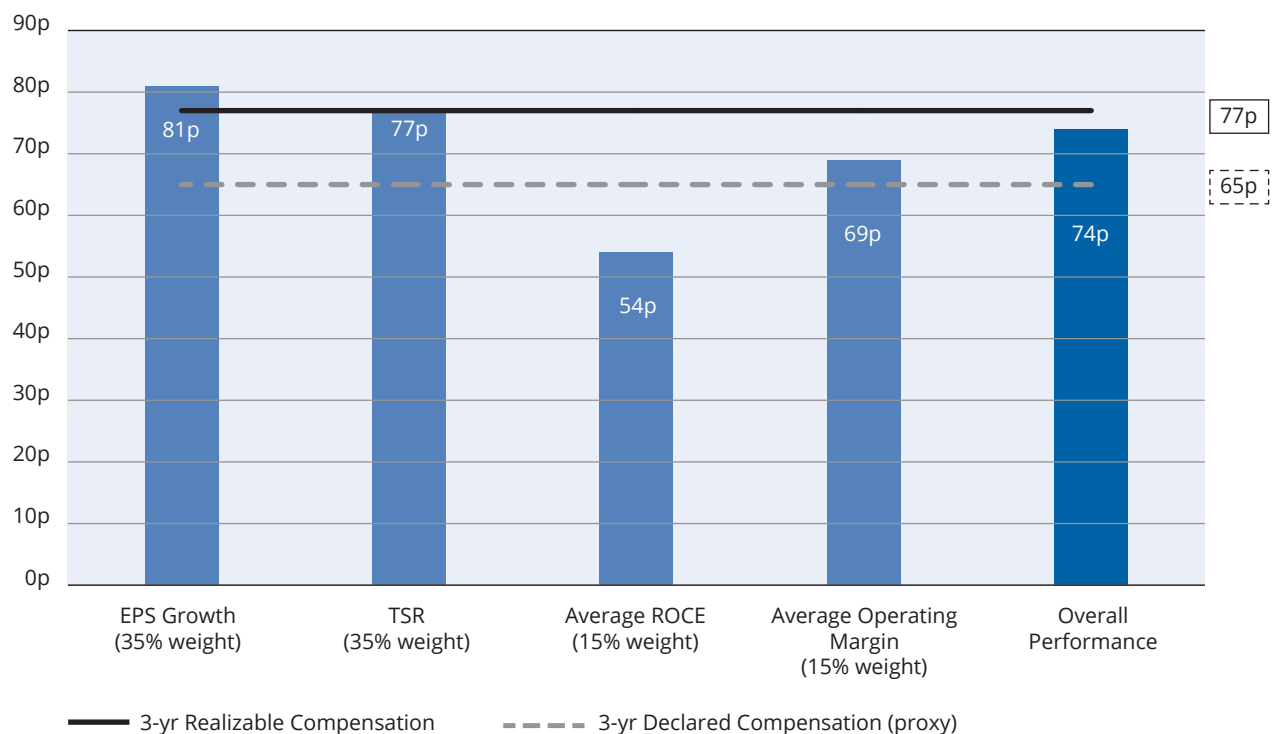

- For time-vested equity: Value of all time-vested awards granted (Share units and options) during the measurement period of three years valued at the closing price on the last day of the measurement period.
- For performance-based equity: Value of all performance-based awards (regardless of the date it was granted) for which the final performance result was established during the measurement period, i.e., it is the value of performance-based awards earned based on the final performance results achieved during the measurement period of three years, and valued at the closing price on the last day of the measurement period.

Note: President and CEO compensation for the US and Canadian companies was compared at par.

Pay-for-Performance FY2017-2019

CAE's Percentile in Peer Group

The chart above shows that overall Company performance for the three-year period of FY2017 to FY2019, as defined by the EPS growth, TSR, average ROCE and average operating margin, compared to the performance of our peers during the same period was ranked at the 74th percentile of the whole group. When comparing the three-year realizable compensation of the CAE President and CEO for the same period, it was aligned with the overall Company performance by being at the 77th percentile when compared to the realizable compensation of CEOs of companies in the CAE comparator group.

The overall Company performance for the three-year period of FY2017 to FY2019 compared to CAE peers was close to the top quartile, while the President and CEO's realizable compensation for the same period followed the overall Company performance by being ranked at the 77th percentile. The declared President and CEO's compensation was about midway between the median and the 3rd quartile of the comparator group.

1 Represents the value of Share-based awards granted under the RSUP and the PSUP. The value disclosed for the RSUs and PSUs represents the award date value calculated by multiplying the number of RSUs and PSUs awarded at target (100%) by CAE's weighted average Share price during the five trading days immediately preceding the grant date (\$16.15 for units awarded in FY2017, \$22.17 for units awarded in FY2018 and \$27.14 for units awarded in FY2019). Such value differs from the accounting grant date fair value determined in accordance with IFRS2, Share-based Payments, as the accounting fair value is assessed with the Share price on the date of the award (rather than on an average price). The accounting grant date fair value would be as follows if using the Common Share closing price on the TSX on the respective grant date (\$16.39 on May 31, 2016, \$22.18 on June 9, 2017 and \$27.42 on June 5, 2018): Mr. Parent: \$2,147,746 in FY2017 (a difference of \$31,450), \$2,371,486 in FY2018 (a difference of \$1,070) and \$2,490,559 in FY2019 (a difference of \$25,432); Ms. Branco \$231,099 in FY2017 (a difference of \$3,384), \$471,325 in FY2018 (a difference of \$212) and \$646,289 in FY2019 (a difference of \$6,600); Mr. Colabatistto: \$650,520 in FY2017 (a difference of \$9,526), \$988,784 in FY2018 (a difference of \$445) and \$1,041,137 in FY2019 (a difference of \$10,632); Mr. Leontidis: \$561,030 in FY2017 (a difference of \$8,215), \$794,931 in FY2018 (a difference of \$358) and \$834,939 in FY2019 (a difference of \$8,526); and for Mr. Hounsell: \$274,533 in FY2017 (a difference of \$4,020), \$366,192 in FY2018 (a difference of \$165) and \$399,235 in FY2019 (a difference of \$4,077). Note that the actual value paid, if any, will differ.

2 Represents the value of option-based awards granted under the ESOP and determined based on the grant date fair value of the award in accordance with IFRS2. Note that actual value received, if any, will differ. The value of each option is determined using the Black-Scholes model with the following assumptions:

	FY2019	FY2018	FY2017
Dividend yield	1.31%	1.44%	1.83%
Expected volatility	18.34%	18.39%	19.66%
Risk-free interest rate	2.07%	0.85%	0.75%
Expected option term	4	3.75	4
Black-Scholes Value	15.41%	12.45%	13.56%

Executive Compensation

- 3 Represents the STIP payout earned in each fiscal year and paid in the first quarter of the following year (see Section 7 – “Short-Term Incentive Plan – Corporate and Individual performance” for details). Ms. Branco has elected to defer a portion of her FY2017 and FY2018 STIP payouts to the Executive DSUP. Mr. Hounsell has elected to defer a portion of his FY2019 STIP payout to Executive DSUP.
- 4 The pension value shown corresponds to the compensatory value reported in the Defined Benefit Plan Table and includes the service cost and the impact of the increase in earnings in excess of actuarial assumptions. For Mr. Colabatistto, the value in FY2018 also includes Company contributions to the Non-Qualified Deferred Compensation (NQDC) plan in the amount of \$80,000. Mr. Colabatistto stopped his participation in the NQDC plan as of January 1, 2018.
- 5 All other compensation in FY2019 comprises other benefit expenses and allowances paid by CAE as follows:

- 1 RSU awards under the RSUP (see Section 7 – “Compensation Discussion & Analysis” for details). Under this plan, 100% of the granted units will vest in June 2021, subject to the participant’s continued employment with CAE. Vested RSUs will be paid based on the average Common Share price on the TSX during the 20 trading days preceding the final vesting date of the grant.
- 2 PSU awards under the PSUP (see Section 7 – “Compensation Discussion & Analysis” for details). Under this plan, the granted units may vest in June 2020, subject to CAE’s EPS performance and the EPS payout grid approved by the HRC and the participant’s continued employment with CAE. Depending on the EPS performance each year during the performance period, the target rate of granted units will be multiplied by a factor ranging from 0% to 200%. Vested PSUs will be paid based on the average Share price on the TSX during the 20 trading days preceding the final vesting date of the grant.
- 3 Stock options awards under the ESOP (see Section 7 – “Compensation Discussion & Analysis” for details). Under this plan options are granted with an exercise price equal to the weighted average price per Common Share on the TSX on the five trading days immediately preceding the grant date (if the grant date falls within a blackout period or within five trading days following the end of the blackout period, the date of grant shall be presumed to be the sixth trading day following the end of such blackout period). At each of the first four anniversaries of the grant, 25% of the award vests and becomes exercisable.
- 4 The grant price on grant date is equal to the weighted average price of the Common Shares on the TSX on the five trading days immediately preceding the grant date, (if the grant date falls within a blackout period or within five trading days following the end of the blackout period, the date of grant shall be presumed to be the sixth trading day following the end of such blackout period).

1 Pursuant to the terms of the plan, options under the ESOP were granted with an exercise price equal to the weighted average price of the Common Shares on the TSX on the five trading days immediately preceding the grant date (if the grant date falls within a blackout period or within five trading days following the end of a blackout period, the date of grant shall be presumed to be the sixth trading day following the end of such blackout period).

2 Options are in-the-money if the market value of the Common Shares covered by the options is greater than the option exercise price. The value shown is equal to the excess, if any, of the Common Share closing price on the TSX on March 29, 2019 (\$29.61) over the option's exercise price. The actual value realized will be based on the actual in-the-money value upon exercise of the options, if any. The options vest at 25% per year commencing one year after the grant date.

3 Represents the aggregate number of units that have not met all performance or employment conditions for payment.

4 Payout value is established based on the expected payout as per the performance targets achieved as of March 31, 2019 for PSUs and based on the Common Share closing price on March 29, 2019 (\$29.61) for LTUs, and for RSUs and PSUs payable in May 2019, June 2020 and June 2021.

5 Represents the portion of units under the LTUP that are vested at the end of the fiscal year and the units under the Executive DSUP and for which payment is deferred to the termination of employment.

Incentive plan awards – value vested or earned during the year

The following table shows the value that was vested or earned, as well as the gain earned from options exercised, by the Named Executive Officers during FY2019 in respect of incentive plans.

Name	Option-Based Awards-Value Vested During the Year ¹	Number of Options Exercised During the Year	Gain on Exercise During the Year	Share-based Awards-Value Vested During the Year ²	Non-Equity Incentive Plan Compensation-Value Earned During the Year ³

M. Hounsell	555,570	–	–	362,754	324,395

1 This represents the value of potential gains from options that vested during FY2019. These generally include the portion of the options that were awarded in the last four fiscal years that vested in the year. The potential gains are calculated as the excess, if any, of the closing price of Common Shares on the TSX on each of the option vesting dates in FY2019 over the exercise price. The actual value realized, if any, will differ and will be based on the Common Share price on the actual exercise date.

2 The value of Share units that vested during FY2019 include: (i) the portion of units under the LTUP that were awarded in the last five fiscal years that vested during the year, based on the closing price of Common Shares on each of the respective vesting dates, for which payment is deferred to the termination of employment; (ii) the PSUs that vested on May 29, 2018 based on the average closing price of Common Shares on the 20 trading days preceding the vesting date on May 29, 2018, specifically \$4,744,320 for Mr. Parent, \$146,777 for Ms. Branco, \$1,364,980 for Mr. Colabatisitto and \$1,251,314 for Mr. Leontidis, M. Hounsell did not benefit from this grant; (iii) the RSUs that vested on May 29, 2018 based on the average closing price of Common Shares on the 20 trading days preceding the vesting date on May 29, 2018, specifically \$948,864 for Mr. Parent, \$29,405 for Ms. Branco, \$273,046 for Mr. Colabatisitto, \$250,312 for Mr. Leontidis and the RSUs that vested on March 16, 2019 based on the average closing price of Common Shares on the 20 trading days preceding the vesting date on March 16, 2019, specifically \$362,754 for Mr. Hounsell. None of the other PSUs or RSUs have vested as of March 31, 2019.

3 This represents the value paid to the NEOs under the short-term incentive plan for FY2019 year (see Section 7 – “Short-Term Incentive Plan – Corporate and Individual performance” for details).

Pension Arrangements

The NEOs and key executives are members of the contributory Designated Pension Plan registered in Canada and the non-contributory Supplementary Pension Plan. The amounts payable under these arrangements are based on “average annual earnings” which are calculated on the basis of the 60 highest-paid consecutive months of base salary and STIP payouts.

The Supplementary Pension Plan provides a pension benefit upon normal retirement at age 65 so that the pensions payable under CAE’s pension arrangements will result in an annual pension equal to 2% of average annual earnings (being the five-year top average salary and actual short-term incentive compensation for NEOs other than the President and CEO for each year of pensionable service, assuming no limitation on the amount paid from a registered pension plan imposed by Canadian tax legislation). The President and CEO’s short-term incentive compensation used for the purpose of determining his average pensionable annual earnings is the target bonus. His maximum annual pension benefit is limited to one million fifty thousand dollars (\$1,050,000). Executives may retire from the Company from age 60 with full pension entitlement. An executive is considered as having retired for the purposes of the Supplementary Pension Plan if, at the time of termination of employment with CAE, he/she is at least age 55 with a minimum of 5 years of participation in the Supplementary Pension Plan. The annual pension benefit will be reduced by between 0.5% and 0.25% per month prior to NEO’s normal retirement age depending on the age of the NEO at time of retirement.

Section 7 (continued)

Executive Compensation

Pensions payable under the Supplementary Pension Plan are paid directly by CAE. In Canada, CAE is obligated to fund or provide security to ensure payments under the Supplementary Pension Plan upon retirement of the executive. CAE has elected to provide security by obtaining letters of credit for a trust fund established for those executives who have retired. CAE has secured certain NEO's and key executives' pension benefits by a letter of credit for a trust fund established for the executives.

- **Pensions payable under the Supplementary Pension Plan are conditional upon compliance with non-competition and non-solicitation clauses.**
- **No extra years of service are generally granted under the pension plans.**

CAE does not generally grant extra years of credited service under its pension plans. Receipt of pension benefits under the Supplementary Pension Plan is conditional upon the compliance with non-competition and non-solicitation clauses.

The following table sets forth the credited years of pensionable service and the present value of the NEOs' accumulated benefits as at March 31, 2019 under the Designated Pension Plan and the Supplementary Pension Plans in connection with retirement.

Name	Number of years of credited service	Annual Benefits Payable		Accrued obligation at start of the year	Compensatory change ¹	Non-compensatory change ²	Accrued obligation at year-end ³

M. Hounsell	3.17	41,000	228,000	495,000	225,000	50,000	770,000

¹ The change in benefit obligation that is compensatory includes the service cost and the increase in earnings in excess or below what was assumed. The service cost is the estimated value of the benefits accrued during the calendar year.

² The change in benefit obligation that is not compensatory includes interest cost, change in assumptions, and gains and losses other than for a difference in earnings and the decrease in the discount rate used to value the pension plans which increases the accrued obligation.

³ The present values of the accumulated benefits reported in the above table are calculated in accordance with the assumptions used for financial reporting purposes. See Note 14 to CAE's consolidated financial statements for the fiscal year ended March 31, 2019. The total present value of accumulated benefits in our financial statements is calculated in accordance with IFRS.

⁴ Mr. Colabatistto's pension is payable in US dollars converted to Canadian dollars using a conversion rate of \$1.29 as of March 29, 2019.

For additional information about the Designated Pension Plan and the Supplementary Pension Plan, see Section 7 – “**Executive Compensation – Termination and Change of Control Benefits**” below.

Executive Compensation

Termination and Change of Control Benefits

Payment entitlements upon termination

The various compensation plans applicable to the NEOs also contain different provisions that apply upon termination of employment or change of control of CAE. CAE does not have a formal policy for providing severance payment in the case of termination of employment but may provide severance payments and benefits as required by law.

CAE has nevertheless entered into employment agreements with Messrs. Parent, Colabatistto and Hounsell that provide for the payment of severance amounts and certain other benefits in the event of involuntary termination other than for cause. Mr. Parent's severance entitlement on termination of employment other than for cause is two years' salary plus target bonus, benefits and expenses. Mr. Parent would also be entitled to two years of service credited to the Supplemental Pension Plan. Mr. Colabatistto's severance entitlement on termination of employment other than for cause is 18 months of salary plus target bonus. Mr. Hounsell's severance entitlement on termination of employment other than for cause is 14 months' salary plus target bonus.

CAE is also party to agreements with three executive officers who are NEOs, specifically Messrs. Parent, Colabatistto and Leontidis, pursuant to which such executives are entitled to termination of employment benefits following a change of control of CAE where the executive's employment is expressly or implicitly (constructive dismissal) terminated without cause within two years following the change of control. In such event, the executive is entitled to 24 months of annual compensation (salary, short-term incentive and employee benefits, payable as a lump sum), payment for long-term incentive Deferred Share Units, the immediate vesting of supplementary credited service for the purposes of any pension or retirement income plans, vesting of all options which vest within two years from the date of the termination or resignation of the executive and an extension of the exercise period for the options to permit the executive to exercise such options within 24 months from the date of termination or resignation.

Section 7 (continued)

¹ Change of control is defined in the Change of Control Agreements between CAE and each Named Executive Officer, except for Ms. Branco and Mr. Hounsell who do not benefit from such agreement. A change of control may be triggered by a number of events, notably an acquisition by a person of 20% of CAE's voting rights which is accompanied by a change in the composition of the Board, an acquisition by a person of 35% of CAE's voting rights or an acquisition of Shares representing half the equity of CAE. Compensation programs have various definitions of change of control events with different impacts on compensation. The provisions illustrated in the above table are for specific events that would provide the maximum benefits to the executives.

² Pursuant to the Change of Control Agreements between CAE and each Named Executive Officer, except for Ms. Branco and Mr. Hounsell who do not benefit from such agreement, following a change of control, termination is defined as an involuntary termination that occurs within the first two years following the change of control.

³ In the event of involuntary termination when severance is payable, it will be determined at the time of termination, taking into consideration the appropriate factors and current state of legislation and jurisprudence. Mr. Parent's severance entitlement on termination of employment other than for cause is two years' salary plus target bonus, benefits and expenses. Mr. Parent would also be entitled to two years of service credited to the Supplemental Pension Plan. Mr. Colabatistto's severance entitlement on termination of employment other than for cause is 18 months of salary plus target bonus. Mr. Hounsell's severance entitlement on termination of employment other than for cause is 14 months' salary plus target bonus. The severance amount is undetermined for other NEOs.

⁴ The severance amount is equal to two times the sum of base salary, target bonus (or actual bonus averaged over the last three years, if greater), and the sum of the value of employee benefits and perquisites provided to the executive.

In the event of death during active employment with CAE, the executive is deemed to have retired the day before his/her death if he/she was at least age 55, otherwise, he/she is deemed to have terminated his/her employment the day before his/her death.

Executive Compensation

Amounts payable to NEOs upon specified termination events

The following table sets forth estimates of the amounts payable to the NEOs upon specified events, assuming that each such event took place on March 31, 2019. The table does not quantify benefits under plans that are generally available to salaried employees and do not discriminate in favour of executive officers, including the Retirement Plan For Employees of CAE Inc. and Associated Companies, the ordinary DSU plan and the Employee Stock Purchase Plan. In addition, the table does not include the value of outstanding equity awards that have previously vested, such as stock options and DSUs/ LTUs, which are set forth above in Section 7 – “**Executive Compensation – Incentive Plan Awards**”. For descriptions of the compensation plans and agreements that provide for the payments set forth in the following table, including our change in control agreements, see Section 7 – “**Executive Compensation – Termination and Change of Control Benefits**”.

¹ In the event of involuntary termination when severance is payable, it will be determined at the time of termination, taking into consideration the appropriate factors and current state of legislation and jurisprudence. Mr. Parent's severance entitlement on termination of employment other than for cause is two years' salary plus target bonus, benefits and expenses. Mr. Parent would also be entitled to two years of service credited to the Supplemental Pension Plan. Mr. Colabatistto's severance entitlement on termination of employment other than for cause is 18 months' salary plus target bonus. Mr. Colabatistto's severance was converted into Canadian dollars using March 29, 2019 exchange rate of \$1.29. Mr. Hounsell's severance entitlement on termination of employment other than for cause is 14 months' salary plus target bonus.

² The time-RSU and the PSU values have been established by multiplying the number of units that would have vested upon involuntary termination as of March 31, 2019, based on performance during completed years, where applicable, and using the average fair market value of Common Shares on the TSX during the 20 trading days preceding the vesting date of \$ 28.91. Note that actual value will differ.

³ Severance amounts for Messrs. Parent, Leontidis and Colabatistto are as per their Change of Control Agreements, Ms. Branco and Mr. Hounsell do not benefit from such agreement. Mr. Hounsell's severance entitlement on termination of employment other than for cause is 14 months' salary plus target bonus as per note 1 above.

⁴ The LTU value has been calculated by multiplying the number of units that would have vested upon a change of control as of March 31, 2019, and which will be redeemable within the year following the year the executive's employment is terminated. As of March 31, 2019, all LTUs had already vested.

⁵ Option value has been calculated by multiplying the number of options that would have vested upon a change of control as of March 31, 2019 using a closing price of Common Shares of \$29.61 on March 29, 2019, less the applicable option exercise price. Note that actual value will differ.

⁶ RSU and PSU value has been established by multiplying the number of units that would have vested upon a change of control as of March 31, 2019 using a closing price of Common Shares on the TSX of \$29.61 on March 29, 2019. Note that actual value will differ.

⁷ The Supplementary Pension Plan benefits set forth for each NEO reflect the incremental value of benefits for each termination event that exceeds the present value of benefits set forth in the “**Pension Benefits**” tables above. While only Messrs. Parent, Colabatistto and Leontidis are eligible for retirement, it was assumed for this purpose that each of the other NEOs will retire at the age of 60.

Appendix A – Board of Directors’ Charter

CAE Inc. Board of Directors’ responsibilities

CAE’s President and Chief Executive Officer and the Company’s other executive officers are responsible for the management of the Company. The Board of Directors (the “**Board**”) is responsible for the stewardship of the Company and for monitoring the actions of, and providing overall guidance and direction to management.

Mandate

The Board shall act in the best interest of the Company. In fulfilling its mandate, the Board shall, among other things:

Committees

The Board may establish committees, as it deems necessary or desirable, to assist it in the fulfillment of its duties and responsibilities, with such terms of reference as the Board may determine, and may delegate from time to time to such committees or other persons any of the Board’s responsibilities that may be lawfully delegated. As such, the Board currently maintains an Audit Committee, a Human Resources Committee and a Governance Committee. Each committee is comprised entirely of independent directors, as determined by the Board in light of securities laws and applicable exchange rules, and each member of a committee is appointed by the Board after thorough review of the requirements for membership on each such committee. The independent directors will periodically, as they see fit, hold meetings without management.

Strategy

The Board will maintain a strategic planning process and annually approve a strategic plan that takes into account, among other things, the opportunities and principal risks of the Company’s business. The Board also supervises management in the implementation of appropriate risk management systems. Separately from the strategic plan, the Board also approves an annual budget for financial performance.

Corporate governance

Corporate governance issues are the responsibility of the full Board. This includes the disclosure thereof in the Company’s annual report and Management Proxy Circular.

The Board periodically reviews a Disclosure Policy for the Company that, *inter alia*, addresses how the Company shall interact with Shareholders, analysts and other stakeholders and covers the accurate and timely communication of all important information. The Company communicates with its stakeholders through a number of channels including its website, and they in turn can provide feedback to the Company in a number of ways, including e-mail.

The Board, through its Governance Committee, regularly reviews reports on compliance with the Company’s Code of Business Conduct and ethical practices. It periodically reviews Company policies with respect to decisions and other matters requiring Board approval.

Audit, finance and risk management

The Board, directly and through the Audit Committee, oversees:

- (i) the integrity and quality of the Company’s financial reporting and the effectiveness of internal controls and the Company’s risk management processes;
- (ii) the Company’s compliance with legal and regulatory requirements;
- (iii) the qualifications and independence of the Company’s external auditors;
- (iv) the performance of the Company’s internal accounting function and external auditors; and
- (v) the adequacy of the Company’s material public documents prior to their release.

Succession planning

The Board, with the help of the Human Resources Committee, ensures a succession plan is in place for the Chief Executive Officer and for other senior employees of the Company and monitors such plan.

Other Important Information

Oversight and compensation of management

The Board considers recommendations of the Human Resources Committee with respect to:

- (i) the appointment and compensation of senior officers of the Company at the level of Vice President and above;
- (ii) the implementation of processes for the recruitment, training, development and retention of senior employees who exhibit the highest standards of integrity and competence and any recommendation for improvement of the processes in place to develop high potential individuals, such as the Annual Leadership Development Process;
- (iii) the compensation philosophy for the Company generally;
- (iv) the adoption of any incentive compensation and equity-based plans, including stock option, stock purchase, deferred share unit, restricted share unit or other similar plans, in which employees are or may be eligible to participate; and
- (v) the Company's retirement policies and special cases.

The Board communicates to the President and Chief Executive Officer and periodically reviews the Board's expectations regarding management's performance and conduct of the affairs of the Company. The Board also periodically reviews the President and Chief Executive Officer's position description and objectives and his performance against these objectives. Each year, after a performance evaluation, the Board approves, with the recommendation of the Human Resources Committee, the President and Chief Executive Officer's compensation.

Health, Safety and Environment matters

The Board ensures, through reasonable measures, that the Company has appropriate health, safety and environment policies and procedures and reviews any material issues relating to such matters and management's response thereto.

Directors' qualifications, compensation, education and orientation

The Board, through the Governance Committee, develops a process to determine, in light of the opportunities and risks facing the Company, what competencies, skills and personal qualities are required for new Directors in order to add value to the Company while ensuring that the Board is constituted of a majority of individuals who are independent. With regards to Board composition, the Board ensures adherence to the term limits imposed on all directors and takes into account criteria that promote diversity, including but not limited to gender, international background, nationality, age and industry knowledge, in light of the Company's Policy Regarding Board and Executive Officer Diversity.

The Board, through the Governance Committee, develops a program for the orientation and education of new directors, and ensures that prospective candidates for Board membership understand the role of the Board and its committees, the nature and operation of the Company's business, and the contributions that individual directors are expected to make, and develops a program of continuing education if needed for directors.

The Board considers recommendations of the Governance Committee with respect to the level and forms of compensation for directors, which compensation shall reflect the responsibilities and risks involved in being a director of the Company.

Assessment of board and committee effectiveness

The Board considers recommendations of the Governance Committee for the development and monitoring of processes for assessing the effectiveness of the Board, the committees of the Board, the committees' chairs, the Chair of the Board and the contribution of individual Directors, which assessments shall be made annually. These results are assessed by the Chair of the Board and/or the Chair of the Governance Committee and are reported to the full Board, which decides on actions deemed necessary, if any. The Board ensures that the number of Directors and the composition of the Board permit the Board to operate in a prudent and efficient manner.

Other Important Information

The Board is responsible for overseeing the management of the Company's pension plans and does this through its Human Resources Committee.

Outside advisors

Directors may hire outside advisers at the Company's expense, subject to the approval of the Chair of the Board, and have access to the advice and services of the Company's Corporate Secretary, who is also the General Counsel and Chief Compliance Officer.
